SRI GURU SMARANAM

गुरु ब्रम्हा गुरु वशिष्ठ, गुरु:देवो महेश्वरा ।

गुरु शाक्षात परब्रम्हा तस्मै श्री गुरुवे नमः।।

Adichunchanagiri Mahasamsthana Mathadhipathi, Gurudev Sri Sri Sri Dr. Balagangadharanatha Maha swamiji, (1945 - 2013) was a spiritual leader, social reformer and philanthropist from the state of Karnataka, India. He was instinctive on February 25, 1945, in Kikkeri village in Mandya district.

He was initiated into sainthood at a young age by his guru, Sri Sri Sri Jagadguru Padmabhushana Dr. Sri Sri Sri Chandrasekhara Shivacharya Mahaswamiji of the Sri Suttur Math. He later went on to establish the Adichunchanagiri Math in 1973, which has since become a major spiritual and philanthropic institution in Karnataka. and went on to become the head of the Adichunchanagiri Mutt. Under his leadership, the Mutt grew to become a major center for education, healthcare, and social welfare.

Mahaswamiji was known for his efforts to promote education, particularly among the underprivileged sections of society. He established numerous schools, colleges, and vocational training centers in rural areas, which have helped to transform the lives of thousands of students. He was also a champion of environmental conservation and played a key role in the successful implementation of the Cauvery Wildlife Sanctuary project, which helped to protect the biodiversity of the region. In recognition of his contributions to society, Swamiji was awarded numerous honors and awards, including the Padma Bhushan, the third-highest civilian award in India.

Sri Sri Sri Mahaswamiji was widely respected for his wisdom, compassion, and humility. He was a spiritual guide and mentor to many, and his teachings emphasized the importance of selfless service, compassion, and devotion to God. He left this eternal world away on December 13, 2013, at the age of 68, leaving behind a legacy of social and spiritual service that continues to inspire people around the world.

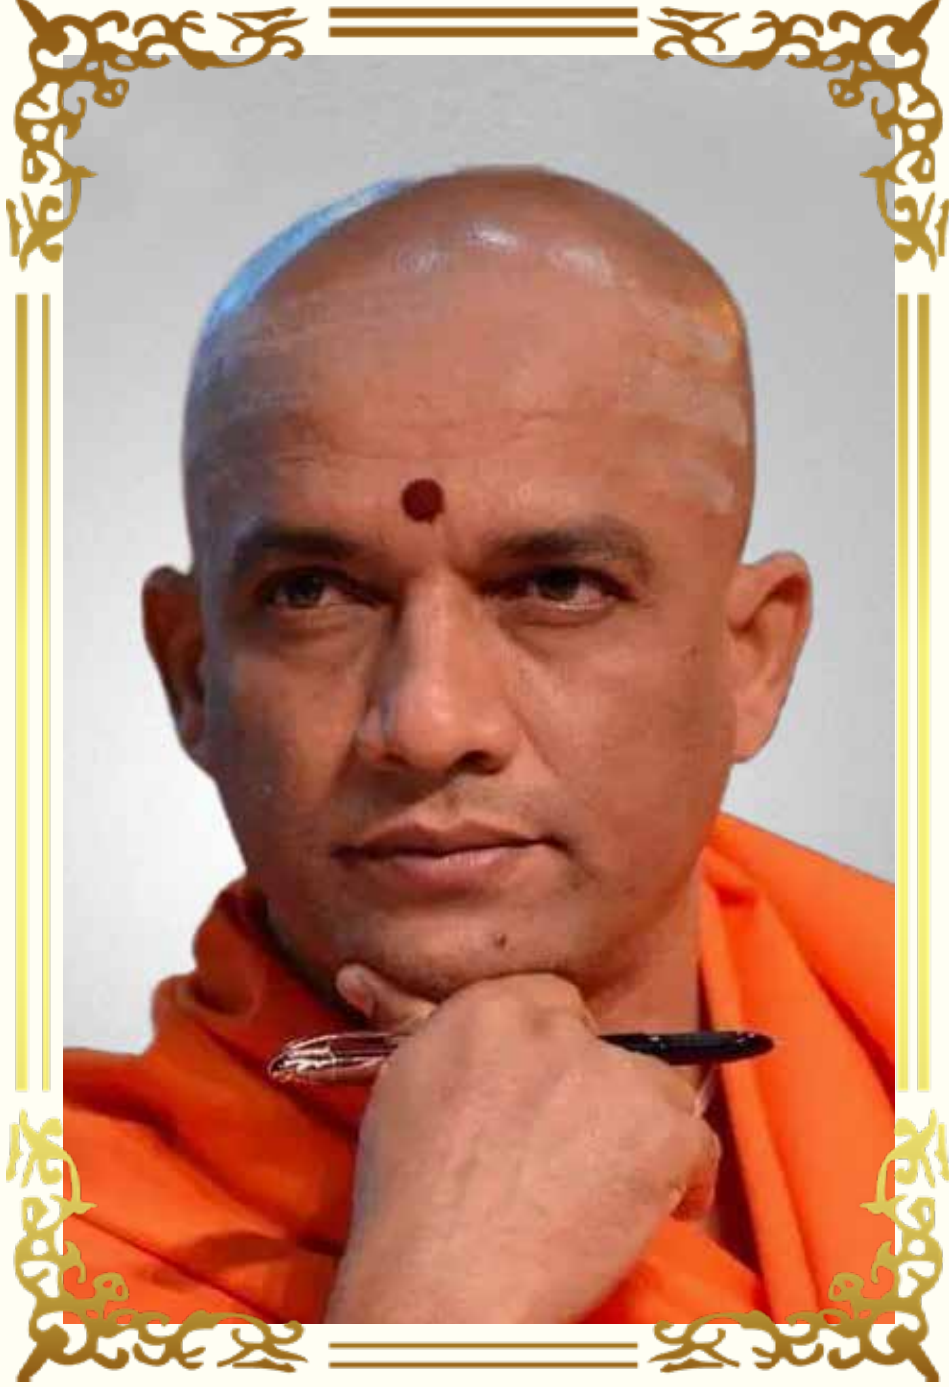

The vision and endeavours of Mahaswamiji, where Adichunchanagiri University stands tall its spreading colours of various educational programs such as medical, Pharmacy, Nursing, Technology, Education etc.

Our sincere and heartfelt pranams to the lotus feet of Jagadguru Bhairavaikya Sri Sri Sri Dr. Balagangadharanatha Mahaswamiji.

Jai Sri Gurudev

**Sri Sri Sri
Dr. Nirmalanandanatha
Mahaswamiji**

Hon'ble Chancellor, ACU

It gives me immense pleasure to write the foreword message for this 10th edition of Aoushadhagiri magazine. I feel proud to witness the dedication and hard work of our students and faculty, making this magazine a reality.

The college magazine 'Aoushadhagiri' is not just a publication, but a reflection of the creative and intellectual pursuits of college community. I believe it showcases the diverse talents and achievements of our students and faculty, and highlights the significant contributions of our alumni to the society.

In today's fast-paced world, where information is readily available at our fingertips, it is heartening to see our students taking the time and effort to create a tangible piece of literature that celebrates the spirit of our college.

I would like to commend the editorial team for their efforts in bringing together this Aoushadhagiri vol-X, and for their dedication to promoting the true values and culture of the institute. I would also like to applaud students, faculty, and staff for their aids to this magazine, and for their commitment to academic excellence and community service.

Finally, I encourage all the readers to explore the contents of this magazine, and to engage with the diverse ideas and perspectives presented in its pages. I hope that this edition of 'Aoushadhagiri' will inspire and motivate readers to continue pursuing their passions and making a positive impact in their communities.

(Sri Sri Sri Dr. Nirmalanandanatha Mahaswamiji)

MESSAGE

I am happy to know that the Sri Adichunchanagiri college of Pharmacy, approved by PCI, New Delhi is bringing out an annual Magazine "Aoushadhagiri"(Vol-X) which provides a platform to the budding students to showcase their extra bonanza literary talent and also carries the expert opinion from various eminent personalities from respective fields in current Pharmaceutical Education and Industrial growth.

I wish the editorial team, management and students a grand success.

(Thaawarchand Gehlot)

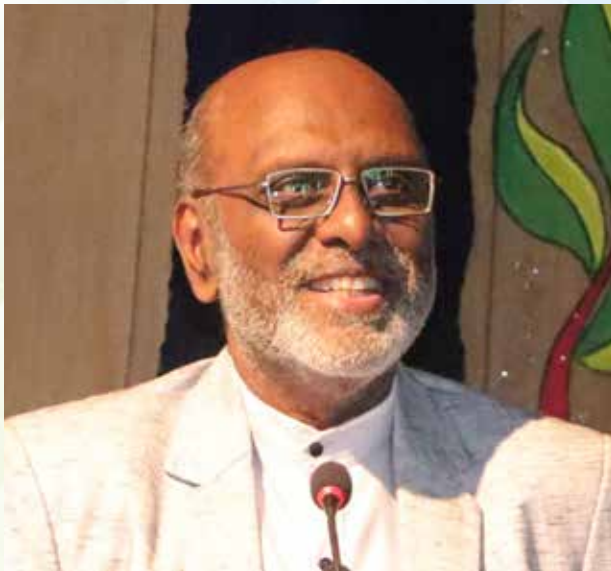

Dr. Montu M Patel

**President
Pharmacy Council of India**

I am delighted to know that Sri Adichunchunagiri college of Pharmacy is bringing out the tenth volume of 'Aoushadhagiri', annual magazine, for the academic session 2023. I acclaim the efforts put forth by the staff of Sri Adichunchunagiri college of Pharmacy under the able leadership of the principal. This annual magazine is a platform where every student gets opportunity to showcase his or her skills and talents in writing and in various art forms. It inspires each one in his/her holistic growth and motivates them to achieve personal excellence including the principal objective of the college. I am glad that the college is determined hard to imbibe and inculcate strong values and develop requisite intellect in the budding pharmacists.

I am sure that the college will continue to strive better in the field of pharmacy education for betterment of human health. I extend my heartfelt good wishes and appreciation to the fraternity of the college for a successful publication of the magazine and continuing the voyage of excellence.

(Dr. Montu M Patel)

Prof. Dr. M A Shekar
Hon'ble Vice-Chancellor, ACU

April, 29, 2023

Jai Sri Gurudev

Sri Adichunchanagiri College of Pharmacy (SACCP) is an important constituent institute of the multi-faculty Adichunchanagiri University. SACCP is well known for quality education in the field of pharmacy encompassing a balanced blend of academics and research.

The college has the distinction of having 80th rank in National Institutional Ranking Framework (NIRF) by Ministry of Education, Govt. of India and ISO Certification. The college is accredited with NBA (B. Pharma).

It is a proud feeling to note that the very first PhD scholar awarded the doctoral degree by ACU is from SACCP.

I am happy to note that the magazine is showcasing not only academic achievements but also the inherent talents of students and faculty in literary, cultural and extra-curricular activities, thus helping the student community in their overall development by building competence and character.

I congratulate the team members responsible for "Aoushadagiri" magazine and wish them the very best. I urge them to continue the good work in inspiring the student community through the fantastic contents of the magazine, every year.

Best Regards

(Dr. M.A. Shekar)

MESSAGE

Greeting of the Season!

'If you want to change the world, pick up your pen and write. – Martin Luther'. It is my pleasure to congratulate the editorial team and the readers of "Aoushadhagiri" (Vol- X).

Institutional magazine prepared by students is a concept very dear to me. I have been always very vocal on the need of supporting student talent and skill development through magazines and bulletins. In this era of ChatGPT, the originality of writing is slowly getting lost. We have very few people who admire the art of writing original articles and read the same. In such an artificial intelligence driven world, I am very happy to see your initiative of publishing annual magazine. Such activities are necessary for student development.

We as team APTI are working hard to provide ample resources and network for pharmacy teachers to create a positive identity on national level. I am sure that our teachers always support students in all extra-curricular activities. Accolades to the teachers participating and supporting these initiatives through your magazine and editorial board. We need to work hard to create students for the nation who can observe change and put it in writing through their words.

Many congratulations and best wishes!!!!

All the best

Prof. Milind J. Umekar

Dr. B Ramesh

Dean of Pharmacy and Principal

It gives me boundless pleasure to write this foreword message for the tenth edition of our college magazine 'Aoushadhagiri'. This publication is a testament to the creativity, talent, and hard work of our apprentices, who have once again produced an outstanding magazine that showcases the best of our college community.

Aoushadhagiri (vol.-X) provides a window into the vibrant academic, cultural, and social life of our college. It offers a platform for our students to express themselves and share their ideas, experiences, and achievements. It also allows us to recognize the dedication and excellence of our faculty and staff, who are instrumental in shaping the academic and personal growth of our students.

I would like to extend my gratitude to the editorial team, who have done an excellent job in bringing together this edition of Aoushadhagiri (vol.-X). Their commitment, diligence, and attention to detail are evident in the quality and diversity of the content in this publication.

As we navigate through these challenging times, it is essential to celebrate the positive and inspiring moments that make our college a special place. Aoushadhagiri (vol.-X) is a reminder of the resilience, perseverance, and creativity of our college community, and it reinforces our commitment to academic excellence, personal growth, and social responsibility.

I hope that 'Aoushadhagiri' (vol.-X) will inspire, enlighten, and entertain our readers, and that it will continue to be a source of pride and inspiration for our college community.

A handwritten signature in green ink, consisting of a stylized 'B' followed by a flourish.

(Dr. B Ramesh)

Dr. Pulak Majumder

**Associate Editor,
Aoushadhagiri (Vol. X)**

I am thrilled to present Aoushadhagiri' (vol.-X) - a collective endeavour that vitrines the creative and intellectual pursuits of our academy civic, and I am proud to have played a small part in bringing it to fruition. That was a privilege of working closely with our talented team of writers, editors, and designers to create a publication that reflects the dynamic and diverse spirit of our college community.

This magazine is a tribute to the passion, creativity, and talent of our students, who have once again demonstrated their ability to produce thought-provoking and inspiring work. It is also a testimony to the dedication and expertise of our faculty, who have nurtured and guided students' academic and personal growth.

As you peruse the pages of this magazine, you will find a rich and varied collection of articles, stories, poetry, and artwork that capture the essence of our college community. You will also discover a range of perspectives and voices that reflect the complexity and diversity of our world.

My heartfelt thanks the whole editorial team for their tireless efforts in bringing this edition of Aoushadhagiri (vol.-X)' to fruition. Their commitment, enthusiasm, and expertise have been invaluable in ensuring the quality and relevance of this publication.

To conclude, I invite our readers to engage with the ideas and perspectives presented in this magazine and to join us in celebrating the achievements and accomplishments of our college community.

(Dr. Pulak Majumder)

Happy reading

A JOURNEY TOWARDS EXCELLENCE....

The journey of Sri Adichunchanagiri College of Pharmacy (SACCP) started in the year 1981, with the quixotic and the celestial blessings of Sri Sri Sri Balagangadharanatha Mahaswamiji. It is affiliated under Adichunchanagiri University (ACU), BG Nagar (Formerly with Rajiv Gandhi University of Health Sciences, Karnataka till 2018). SACCP is an NBA accredited, ISO 9000 certified institution.

With the divine the leadership and blessing of Sri Sri Sri Sri Nirmalanandanatha Mahaswamii, the honorable chancellor of ACU, have made a prodigious progress in grooming graduates, post graduates and PhD researchers by providing value-based education in the last 40 years. SACCP has dedicated itself to serve as a Centre for excellence in pharmaceutical science.

Currently it is a leading educational institute providing pharmaceutical education, research and practice. SACCP has recognized nationally in the form of accreditations of National Board Accreditation (NBA). It has ranked 78th under National Institutional Ranking Framework (NIRF), it has achieved Band- Excellent under

Atal Ranking of Institutions on Innovation Achievements (ARIIA) and 4-star rating in Institution Innovation Council (IIC) by Govt. of India.

Apart from that, it has recognized as Best Pharmacy College in south India as per Higher Education summit and also conferred as Top ten pharmacy college in India as per Higher education review magazine 2021.

All faculty members are well-qualified and have good interdisciplinary research experiences

INSTITUTION HIGHLIGHTS

- **78th Rank** in National Institutional Ranking Framework
- Rank **BAND- EXCELLENT** in Atal Ranking of Institutions on Innovation (ARIIA)
- **4/5 - Star rating** in IIC, Govt. of India
- **12 Indian Patents filled and 3 patented.**
- **NBA** accredited (B Pharm) Institution
- **ISO 9001** certified institution
- **Best Pharmacy College** in south India as per Higher Education summit.
- **Top ten pharmacy college** in India as per Higher education review magazine.
- Equipped with **Innovation and Incubation center.**

from pioneer research institutes that allow them to achieve their research goals. Education and Research are equal and essential components of SACCP for continuous professional and scientific development. SACCP, offers an exceptional and diversified portfolio of diploma, undergraduate, post graduate and doctoral programs.

The college aims to diversely train students, allowing graduates to pursue careers or advanced degrees in life science and pharmaceuticals, research, education, hospital and community-based medicine and the pharmaceutical industry.

The faculty members in SACCP have research collaborations with reputed national and international institutions and proving excellent research platforms for conducting advanced research in pharmaceutical science.

The alumni of SACCP are scattered every part of the country as well in abroad and holding the responsible positions of various fields of Pharm sectors tells the success stories and reflects the assistance support by the institutional placement programme.

SACCP is one among the few institutions who have their own Innovation and incubation Centre for promote and encourage the research and innovations into a commercialized product. The result of nurturing innovations and facilitation, last two years institute have filled more than 12 intellectual property rights to the Indian Patent office for new innovations.

“EDUCATION and RESEARCH are equal and essential components for continuous Professional and Scientific Development”

DEPARTMENT OF PHARMACY PRACTICE

PROGRAMME :

**M Pharm
Ph. D
(Pharmacy Practice)**

The Department of Pharmacy Practice was founded at Adichunchanagiri Hospital & Research Centre (AH & RC) in 2008. The Department offers expert clinical pharmacy services such as ambulatory and in-patient counselling, drug and poison information, adverse drug reaction monitoring, pharmaceutical care planning, drug interaction monitoring, therapeutic interventions, research, health screening services, and community outreach programmes. PvPI classifies it as an Adverse Drug Reaction Monitoring Centre (AMC), whereas MvPI classifies it as a Medical Device Adverse Event Monitoring Centre (MDMC).

Currently, the Department has launched a Clinical Research Certification Course and Stipend-Based Clinical Research Training for candidates at the Clinical Trial Centre, AH & RC.

The Department has launched Inter-Disciplinary and Inter-Institutional Collaboration Research with numerous Indian Universities.

Seminars/Webinars/ Guest Lectures (2022):	10
Research Publications (2022):	05
Lectures delivered as Resource Persons (2022):	02
Number of certificate/ value aided course offered:	01

HIGHLIGHTS :

Modern infrastructure with Learn & Earn programme

- Expert faculty team
- Outcome-based internships
- Inter-professional and interdisciplinary collaboration
- Clinical trial centre
- Integration of cutting-edge online software (Micromedex)

MoU with:

- Ruby General Hospital, Kolkata, West Bengal, India.
- Healthcare Global Enterprises Ltd (HCG) Hospital, Bengaluru, Karnataka, India.
- Aster MIMS, Calicut, Kerala, India.

DEPARTMENT OF PHARMACEUTICS & REGULATORY AFFAIRS

PROGRAMME :

**M Pharm
Ph. D
(Pharmaceutics)**

The Department of Regulatory Affairs, established in 2020, and the Department of Pharmaceutics, established in 2009-10, are both committed to offering top-notch instruction, research, and professional development for those working in the pharmaceutical industry.

The Department is committed to using new information to improve health, and it has a strong history of innovation. The department has lecturers with extensive training and expertise, as well as well-equipped lab and pilot plant facilities for creating both conventional and unique formulations. The Department has received financing from a number of funding organisations.

The research activities of the department are concentrated on formulation science and drug delivery systems, with particular strengths in pre-formulation studies, development, and evaluation of diverse pharmaceutical dosage forms, including novel and nanotechnology-based drug delivery systems.

With the inclusion of a certificate course branded "Quality Technolatory" in 2021, the department has published more than 150 research articles, completed 80+ PG projects, 6 Ph.D. projects, and has 10 Ph.D. projects in progress.

Patents published/granted (2022):	03
Seminars/Webinars/ Guest Lectures conducted (2022):	08
Research Publications (2022):	45
Lectures delivered as Resource Persons (2022):	04
Number of certificate/ value aided course offered:	01

HIGHLIGHTS

- State of art laboratories
- Pilot Plant facilities simulating Industrial environment
- Sophisticated Instruments/Equipment's
- Research collaboration with Pharmaceutical Industries and National & International Universities.
- Internship programs and Project work at Pharmaceutical Industries
- Research grants worth of more than 50 lakh

DEPARTMENT OF PHARMACOLOGY

PROGRAMME :

**M Pharm
Ph. D
(Pharmacology)**

In 2014, the postgraduate programme was formed. The department was established to meet the demands and satisfy the desires of students who wanted to pursue their master's in pharmacology across the country and in this particular location. The main goal is to enhance pharmacology teaching and learning while integrating it with fundamental medical sciences. As well as developing novel medications for the treatment and detection of human illnesses, research focuses on identifying the fundamental biochemical pathways by which cellular and molecular activities are regulated and altered by already available pharmaceuticals.

The study of intermolecular interactions between chemical components of cells and pharmaceuticals, as well as the effects of medicines and proven therapeutic agents on mammalian physiological organ systems, further extend the field of pharmacology's research into clinical trials.

HIGHLIGHTS

- EX-PHARM Animal Simulator Software
- CPCSEA approved Animal House
- Advanced lab facilities in Psychopharmacological screening.
- Practical Training in the rational and scientific basis of therapeutics.
- Well-equipped labs to provide hands on training to students.

MoU with:

- STAR HIHERBS Pvt Ltd, Karnataka, India.
- Dipon ED Biolabs Pvt Ltd, Karnataka, India.

DEPARTMENT OF PHARMACEUTICAL CHEMISTRY & ANALYSIS

PROGRAMME :

**M Pharm
Ph. D
(Pharmaceutical
Chemistry
/Analysis)**

A key component of pharmacy education is the Department of Pharmaceutical Chemistry, which works closely with other pharmacy disciplines to produce novel drugs in a variety of ways. The departments started operating in 2010. It plays a significant role in the postgraduate pharmaceutical chemistry programme, which entails learning about a variety of advanced organic chemistry topics, such as process chemistry, advanced medicinal chemistry, and CADD. The study of pharmaceutical formulations, both in their completed form and as raw materials, is a key component of the department of pharmaceutical analysis's work in assessing the efficacy, safety, and quality of pharmaceutical products. With clearance from regulating bodies like ISO, GLP, and others, the drug testing laboratory under the department of pharmaceutical analysis was currently constructed in the year 2020 and prepared for contract research and commercialization.

Research /Review Paper published (2022):	20

HIGHLIGHTS

- Research laboratories are equipped with Carousal Radleys Parallel Synthesizer, High-Speed Centrifuge etc.
- Research lab is equipped with, Shimadzu HPLC (Premier), Ependrop Centrifuge, gas chromatography (Agilent) along with gel electrophoresis.

DEPARTMENT OF PHARMACOGNOSY

PROGRAMME :

**M Pharm
Ph. D
(Pharmacognosy)**

As one of the foundational areas of pharmaceutical knowledge, pharmacognosy exists. It discusses using traditional and old knowledge in a comprehensive way to solve health care problems. Additionally, it offers scientific support for the use of plants in the treatment of a number of illnesses that affect people all over the world.

In 2022, the department of pharmacognosy was founded. The department's major goal is to provide the students with in-depth, practical understanding of herbal medicines, nutraceuticals, cosmeceuticals, and other products made from natural sources. The department also undertakes projects related to the exploitation of traditionally employed drugs for providing scientific background. Establishing fingerprint for the plant materials, extracts and their formulations required for the standardization of quality control of the herbal drugs.

Research /Review Paper published (2022)	02
Books/Book chapter Published (2022)	02
Seminar/ webinar Conducted (2022)	02
Consultancy Project (2022)	-
Patents published (2022)	01

HIGHLIGHTS

- Advanced lab facilities in Phyto-pharmacological screening.
- Isolation and identification of phyto-molecules.
- Formulation developments of phytopharmaceuticals.
- Monograph developments of medicinal plants.
- Microbiological screening facilities.
- 50+ Valuable Medicinal plants in Medicinal Garden.

CLINICAL TRIALS CENTRE (CTC)

PROGRAMME :

Drug Clinical Trials Clinical Research

The mission of the Clinical Trials Centre (CTC) is to help patients, volunteers, and researchers in clinical trials and clinical research with the goal of bringing scientific discovery to the field of patient care. 2019 saw the establishment of CTC at Adichunchanagiri Hospital & Research Centre (AH & RC). The Research Centre has entered into MOUs with a number of organizations, labs, and consultancies with the goal of providing high-quality services for the performance of research activities. Dr. B. Ramesh, Managing Director, Clinical Trials, AH & RC, and Dr. Rajesh Venkataraman, Head, Clinical Trials, AH & RC, are now in charge of the sophisticated Centre. Along with three junior employees and one public relations officer (PRO), Ms. E. Mohanasundari serves as the clinical research coordinator for the organisation. By utilizing innovation and discovery, the Team aims to improve and modify the standard of care. Based on three successive waves of near, next, and horizon, the Clinical Research Centre, AH& RC is prepared to dig deep into the foreseeable future of clinical trials. In the 2020-2021 fiscal year, the CRC successfully completed a number of clinical studies totaling Rs 0.37 crore.

HIGHLIGHTS

- Patient safety and explicit adherence to study protocols.
- Taken up two external industry protocols during lockdown to provide early results on Covid-19 treatments.
- Nearly 225 rural people have benefited with free treatment.
- Leveraged its breadth and technical expertise to create a new paradigm in Drug Discovery and Development.

ADICHUNCHANAGIRI CENTRE FOR ENTREPRENEURS (ACE)

PROGRAMME :

StartUp Incubation of business ideas

The major objective of this incubator is to provide early-stage firms with the assistance and platform they need to develop and launch their businesses. The Adichunchanagiri Centre for Entrepreneurs (ACE) was founded in the year 2020 with the main goal of fostering an innovative culture on campus, assisting in the transformation of ideas into reality, and elevating them to the status of having economic worth. Additionally, this centre develops a startup ecosystem on campus that inspires students to tackle challenging issues, produce high-value work, and benefit society.

Six viable concepts have currently been discovered by the centre and are incubating with a prototype state. The Adichunchanagiri Centre for Entrepreneurs has successfully been formed under Section 8 of the 2013 Companies Act.

Workshop / seminar/ webinar conducted (2022): 08

HIGHLIGHTS

- StartUp Opportunities by ideating solutions for existing market challenges.
- Train, guide and handhold Design Thinking & Problem Collection
- Collect and process pain points of the market
- Strategies, and ideate possible & feasible solutions for the problem statements.

MoU with:

- OpEx Accelerator Pvt. Ltd. Kolhapur, Maharashtra, India.

DEPARTMENT OF TRAINING & PLACEMENT

PROGRAMME :

Training Placements

Placement graph

In 1990, the training and placement division was founded. The organization's goals were to develop chemists who were prepared for the business, direct students towards further education, organize industrial tours and training sessions, and put students in on- or off-campus jobs. This recruitment campaign for final-year UG and PG students as well as aspiring Pharm. D candidates was made possible thanks to the united efforts of this training and placement team. With the exception of those who are interested in continuing their education, the majority of students were placed in various sectors, including sales and marketing, production, quality assurance, quality control, the pharmaceutical business, pharmacovigilance, scientific writing, hospitals, retail pharmacies, and many more.

Workshop/ seminar conducted (2022): 03

HIGHLIGHTES

- Training for interview.
- Placement in various organizations.
- Maximum placements through campus.
- Fulfillments of industries norms and standards

NATIONAL SERVICE SCHEME (NSS)

PROGRAMME :

Outreach programme Community service

The National Service Scheme, or NSS, was established by the Ministry of Youth Affairs & Sports of the Government of India in 1969 with the goal of fostering students' personalities via volunteerism. The number of students has grown to several hundred since the NSSU's founding in the year 2012.

The NSSU offers two different kinds of programmes: regular activities and special camping programmes. Students must perform community service for a minimum of 120 hours annually as part of their "Regular Activities" for a continuous two-year period. Every year, a seven-day camp with a particular theme is held in the selected region as part of the Special Camping Programme. Over a

An illustrative list of some of the activities being carried out by NSSU during the year 2022 is as follows:

Social awareness programme	12
Medical/health camp	04
Social service	05
Seminar/webinar/conference	02

Activities Categorized into Six Themes

DEPARTMENT OF LIBRARY AND INFORMATION CENTRE

PROGRAMME :

Learning resource Information

A library is a collection of information, sources, resources and services, organized for use, and maintained by an institution. In the more traditional sense, it means a collection of books. The Library of Sri Adichunchanagiri College of Pharmacy was established since the inception of the college. This collection and services are used by students who choose not to – or cannot afford to – purchase an extensive collection themselves, who need material no individual can reasonably be expected to have, or who require professional assistance with their research. In addition, with the collection of media other than books for storing information, this library has also repositories and access points. Libraries are valuable institutions for preserving information and tradition from generation to generation, and expanding them worldwide by enabling a smooth and accurate flow of information. More recently, as an extending beyond the physical walls of a building, by including material accessible by electronic means, and by providing the assistance of librarians in navigating and analyzing tremendous amounts of knowledge with a variety of digital tools.

The college library is located on the second floor of the main building of the college and it has a floor area of approximately 1000 sq. ft.

As on 30 June 2023, the library has a collection of books which also includes some old, rare books and valuable reference books, e journals, thesis, dissertations, research compendium etc.

Workshop/ seminar conducted (2022): 02

HIGHLIGHTS

Books	11,628
E Database journals	250
Magazine	05
Digital study materials CV's	35
Thesis/ dissertations	250
Research compendium	07 vol's

ACTIVITIES @ SACCP

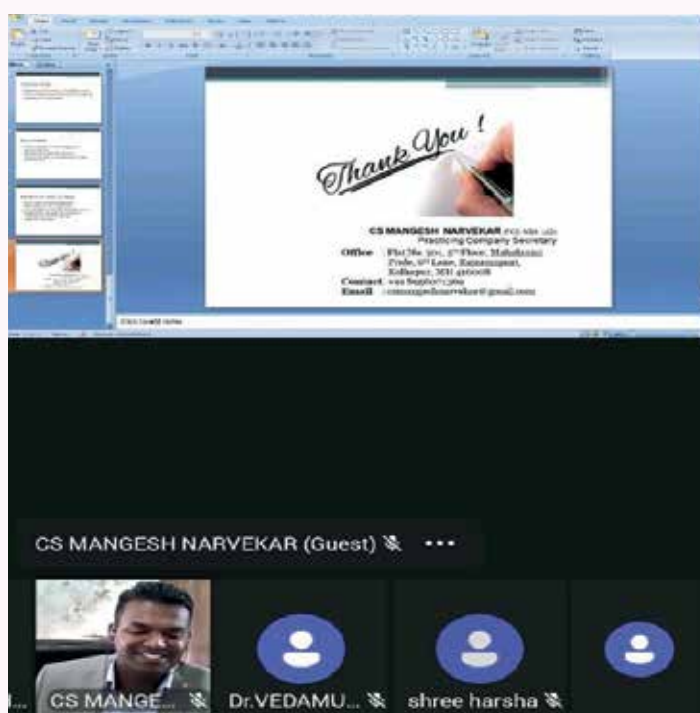

Savitribai Phule Birth Anniversary

Digital leaflets have been circulated about Savitribai Phule, a great social reformer and educationalist on her birth Anniversary on 3rd January 2022.

Seminar on - Legal Aspects of Startup

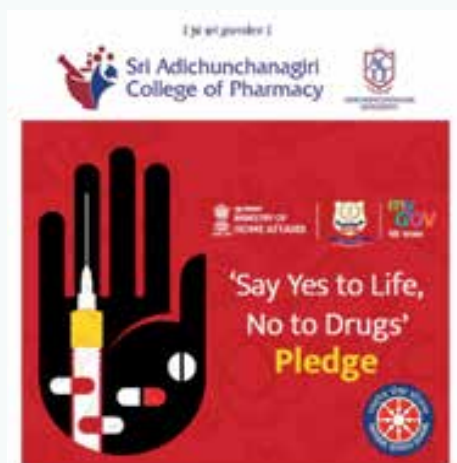

Adichunchanagiri Centre for Entrepreneurs, an Incubation centre organized a seminar on Legal aspects of start-up on 8th January 2022, by online in Microsoft Teams platform. Mr. CS Mangesh Anandaro Narvekar was the resource person who addressed the special start up student team and selected faculty of SACCP. The presentation covered all the basic aspects of the company registration process, its pros and cons of each legal entity also various aspects of IPR, proceed of approach for the same and their importance in the present scenario. The session addressed about the startup and their legal implications and advantages for starting the business. Furthermore, the speaker answered all the queries of students and faculty present on the platform. Students and faculty were also suggested for one more presentation on section 8 company and role of incubation centre in handling the financial aspects of start-ups. The entire session was coordinated by Dr. Vedamurthy Joshi, Coordinator, ACE under the guidance of Dr. B Ramesh, Principal, SACCP, BG Nagara.

Vaccination Drive

Organized vaccination drive for the fresher students on 10th January 2021. First year students of all programmes were benefited with the event.

Say Yes to Life, No to Drugs

NSS unit conducted a e-pledge awareness campaign as a part of the "Nasha Mukta Bharat Abhiyan" of Government of India, Narcotics Control Bureau, Bangalore is undertaking various campaigns to create awareness about the ill effects of drug consumption. With a view to achieve the aforesaid goal, an e-pledge titled "Say yes to life, No to Drugs" has been up-loaded. The objective of this pledge is to spread the messages of ill effect of drugs. Students were actively participated in this campaign.

National Youth Day and Makara Sankranti

Organized jointly with BGS College of Education "National Youth Day and Makara Sankranti" on 12th January 2022 at Yuvalaya. The programme was Inaugurated by traditional lamp lightning followed by Inaugural address and Song, speech & dance. The event was witnessed by the Ashirvachana of Swami Veereshananda Sarswathi, & Swami Dheeranandaji Maharaj of Sri Ramakrishna Vivekananda Ashrama, Tumakuru, through online mode. All constituent colleges Staff/ students have participated actively

Academic Success

Sri Adichunchanagiri College of Pharmacy achieved 98% of success result in VIII semester B Pharmacy recently published by RGUHS, Bangalore.

Tribute and Awareness Drive

- A tribute in the form of leaflet about the great freedom fighter Netaji Subash Chandra Bose was circulate on his birth anniversary on 23rd January 2022.
- An awareness drive was conducted among the young voters regarding the voting rights on National voters' day on 25th January 2022.

- Safer internet day was been celebrated by circulating the digital leaflet in social medias on 8th February 2022.

Indian Army Day

Celebrated Indian Army Day in the commemoration of late General Sri K M Cariappa as a tribute to Indian Army, on 21st January 2021 at Yuvalaya. Sri. Hemaraja, retired BSF soldier graced the event as a chief guest and shared his experience on safeguarding the country and having contributed to the service for nearly 25 years. Dr. B Ramesh, Principal, SACCP expressed his view and encouraged young minds though his inspiring words on this very auspicious moment. Students exhibited their talents giving speech, dance and song performances. Staff and Students of I Year B pharm and Pharm D witnessed the event.

World Cancer Day- 2022

Department of Pharmacy Practice, had organized a webinar in World Cancer Day 2022 on 4th February 2022 at Yuvalaya. The Resource Person was Dr. Priyank Tripathi, Clinical pharmacologist and manager, Department of clinical pharmacology, HCG Speciality Centre, Bengaluru. Apart from the students been joined the meeting via online link, the session was lively broadcasted at Yuvalaya for students as well. The session highlighted on the theme "close the care gap" focussing on accessibility of cancer care for everyone. The session was attended by nearly 170 students.

Lab Visit

Research scholars and post graduate 15 faculty visited Adichunchanagiri Institute of Molecular Medicine, B G Nagar, along with teaching faculty members on 14th February 2022 to explore the research facilities and expertise of the AIMM research group to familiarize students about research related activities carried out in the prestigious AIMM campus and with the intention to collaborate with AIMM for transdisciplinary research in near future. Students were enthusiastic in knowing prospects of cell line and molecular study at AIMM. Nearly 50 RSs, PGs and teaching faculties attended the visit. Dr Shobith Rangappa, Director,

AIMM was facilitate the students visit and was complemented by the expertise of Dr. Sudhanva, Dr. Thammanna Gowda and Mr. Anil. There is more value in seeing and knowing than in reading and learning. Students got real feel of research work after this visit, as they got a chance to transform theoretical knowledge to practical implications.

Research scholars and post graduate students from various departments of Sri Adichunchanagiri College of Pharmacy visited ACU-CRI (Centre for Research and Innovation) B G Nagara, along with teaching faculty members on 15th February 2022 to explore and familiarize the research facilities

to carry out their research work effectively. Nearly 35 RSs, PGs and teaching faculties attended. Dr Prashanta Kalapa and his team explored Virology Lab, Polymer chemistry lab and demonstrated equipment's like 3-D printing, Lyophiliser, X-ray diffraction etc.

Students Field Visit

Diploma in Pharmacy first year students conducted a field visit to ACU - Garbage Treatment Plant, Sewage Treatment, Bio- medical Waste Treatment Plant. B G Nagara, along with Class teacher on 15th February 2022 to explore and familiarize a field visit facility to carry out their research work effectively. Nearly 57 students attended the field visit program and it helped the students to clear the apprehensions about their career to an extent. Under the guidelines of Mr. Arunkumar and Mr. Kirankumar, his team Explained in detailed and demonstrated equipment's- Garbage Treatment Plant, Sewage Treatment, Bio-medical Waste Treatment Plant etc.

Startup Idea Validation Program

ACU Incubation cell, "Adichunchanagiri Centre for Entrepreneurs (ACE)" is launched its debut Startup Idea Validation Program by SACCP budding Entrepreneurs on 18th February 2022 at SACCP. The B Pharm students (III sem) and Pharm D students were participated in this event.

Fresher's Party

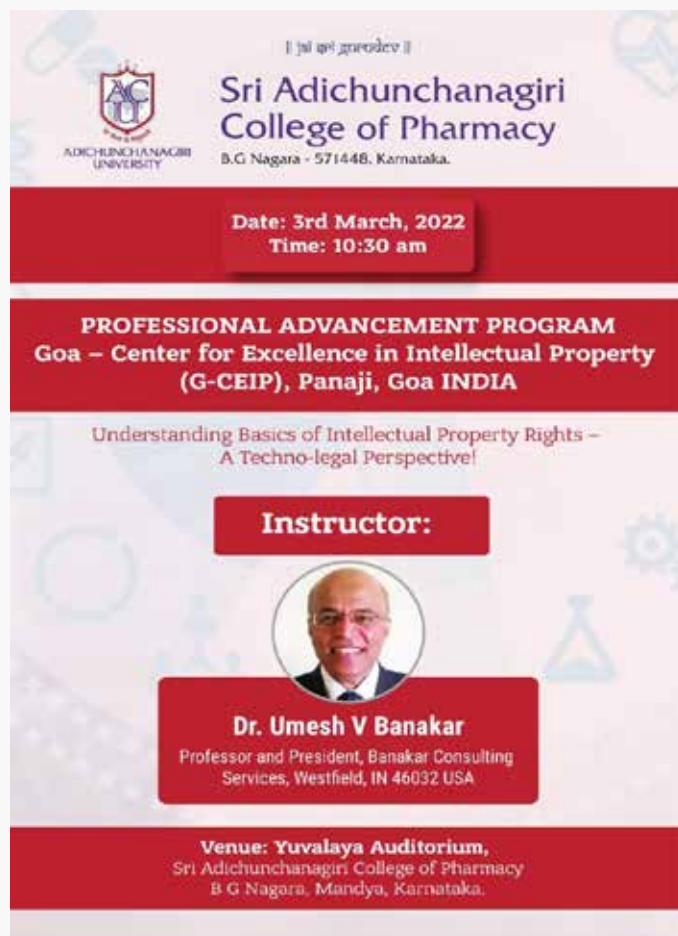

Fresher's Party was organised on 25th February 2022 for the Students of First Year (batch:2021-2022)-D Pharm/B. Pharm/Pharm D and M. Pharm by 5th Pharm. D students and complemented by students of other courses as well. The program "ESPERANZA FIESTA 2022" began with lamp lightening and inaugural speech by beloved Principal, HOD's and Principal of BGS model public school, Mrs. Kusuma. Freshers along with

their seniors got a chance to showcase their talent by a stunning Ramp walk, various Dance performances like solo, Duo, Group dances followed by small games to make the function trickier and fun! Based on the results of ramp walk and questionnaire to short listed participants, Mr and Ms SACCP were announced. Nearly 500 students, teaching and non-teaching staff attended the event.

Professional Advancement Program

ACU Incubation cell and Adichunchanagiri Centre for Entrepreneurs (ACE) is launched its debut Startup Idea Validation Program by SACCP budding Entrepreneurs on 18th February 2022 at SACCP. The B Pharm students (III sem) and Pharm D students were participated in this event.

The poster is for a 'PROFESSIONAL ADVANCEMENT PROGRAM' organized by the 'Goa – Center for Excellence in Intellectual Property (G-CEIP), Panaji, Goa INDIA'. The topic is 'Understanding Basics of Intellectual Property Rights – A Techno-legal Perspective'. The instructor is 'Dr. Umesh V Banakar', Professor and President of Banakar Consulting Services, Westfield, IN 46032 USA. The venue is 'Yuvalaya Auditorium, Sri Adichunchanagiri College of Pharmacy, B G Nagara, Mandya, Karnataka'. The event is dated '3rd March, 2022' at '10:30 am'. The poster also features the logo of Sri Adichunchanagiri College of Pharmacy and the motto '|| ज्ञानं गुरुदेव ||'.

Mega Health Camp - I

A team of 21 comprising of Pharm. D Students, M. Pharm Students and the Ph. D Scholars from Department of Pharmacy practices attended the Mega Health Camp organized by Adichunchanagiri Hospital & Research Centre on 5th March 2022 at K. R Pete. The various departments of AH&RC and various institutions under Sri Adichunchanagiri Shikshana Trust were unified for the successful conduct of Mega camp wherein nearly 12000 people attended the same. The students from SACCP were actively involved in dispensing and patient counselling.

Skill Development Workshop

Institutional Placement cell, organized 2 days Skill Development Workshop in association with Arivu Skill Development Academy on 4th and 5th March 2022 at Yuvlaya. Facilitator was Mr. H V Vishvesh, Director, Arivu Skill Development Academy, trained the final year Pharm D and M Pharm students on various topics. On Day-1, In his presentation he covered the following topics Basics of Business Communication, Presentation Skills & Writing Skills, Assertiveness (Communication style), On Day-2 he trained the students with activities like Introduction to Career Guidance, RESUME Writing, Preparing for Group Discussion, MOCK Group Discussions, Preparing for Personal Interviews, MOCK Personal Interview etc. Around 64 students actively participated and benefited from the workshop.

Ph.D Induction Program

Organized ACU-Ph.D. induction program for 2021-22 to registered Research Scholars on 8th March 2022. Dr. B Ramesh, Dean Health Science Pharmacy delivered the welcome address during which he briefly explained the objectives of the induction program and introduced the dignitaries to the gallery. Dr. K Byrappa, Pro-VC & Dean Research, AÇU in his opening remarks summarized the importance of research in modern era of academics. Dr. C K Subbaraya, Registrar ACU addressed the gathering with his valuable and motivational words. Dr. M A Shekar, Hon'ble VC, ACU shared his experiences and enlighten the scholar's knowledge with his valuable thoughts followed by inauguration of the program. Dr. K Byrappa in his presentation highlighted the importance of research in career building. Dr I R N Goudar, Joint head ICAST, CSIR-NAIL, Bangalore delivered a talk on Literature Search and E -Resources and Selecting a Journal for Publication. Dr B S Shivaram, former Scientist 'G' ICAST, CSIR-NAIL, Bangalore demonstrated the application of Mendeley software for reference management. Around 50 Research scholars of ACU and 80 post graduates & staffs from all the constituent colleges/ units of ACU were actively participated. All Deans of ACU & Principals of constituent units participated in the event.

Time	Details
09:00 AM – 09:30 AM	Registration
09:30 AM – 10:15 AM	Inauguration
10:15 AM – 10:30 AM	Tea Break
10:30 AM – 11:15 AM	Session 1: Importance of Research in Career Building Speaker: Dr. K. Byrappa Hon'ble Pro Vice Chancellor & Dean, Research, ACU, B.G. Nagar, Mandya
11:15 AM – 01:15 PM	Session 2: Literature Search and e-Resources for Academic Research. Speaker: Dr. I.R.N. Goudar Former Scientist 'G' & Head, ICAST, CSIR-NAIL, Bangalore
01:15 PM – 02:00 PM	Lunch Break
02:00 PM – 03:30 PM	Session 3: Mendeley: Reference management made easy. Speaker: Dr. B. S. Shivaram Joint Head, ICAST, CSIR-NAIL, Bangalore
03:30 PM – 03:45 PM	Tea Break
03:45 PM – 05:00 PM	Session 4: Selecting a Journal for Publishing and Publication Ethics. Speaker: Dr. I.R.N. Goudar Former Scientist 'G' & Head, ICAST, CSIR-NAIL, Bangalore
05:00 PM – 05:10 PM	Vote of Thanks

Venue: Yuvlaya, Sri Adichunchanagiri College of Pharmacy, ACU Campus, B.G. Nagar - 571448.

International Women's Day

Women Empowerment Cell, SACCP celebrated International Women's Day on 10th March 2022. Various contests were organized such as Cook off Challenge, Best Out of Waste Swanky Elegant women Poster Competition, Slogan writing Competition etc. nearly 55 students were participated in the event.

INTERNATIONAL WOMEN'S DAY 2022

Theme:
"GENDER EQUALITY TODAY FOR A SUSTAINABLE TOMORROW"

COOK OFF CHALLENGE

- All ingredients must be homemade & best nutritious value
- Participants have to cook without fire. Time limit is 5 min
- Based on the Presentation & Creativity, will have added value

BEST OUT OF WASTE

- ONLY waste material should be used, stationary items are allowed
- The participants have to make the model & talk about it for 2 minutes
- Considered based on utilization of Resources, design, Eco-friendly rating, Creativity, Utility of the Product and Overall Presentation.

SWANKY ELEGANT WOMEN POSTER COMPETITION

- The women's of Any culture elegance should be the main focus of the poster
- Acceptable tools like Photographs, wires, other 3D objects, print-outs
- The participants can use photos of their own or other students of respective class (Minim's Photo)
- Each participant has to present about his/her poster for 2 minutes

SLOGAN WRITING COMPETITION

- All participants must provide a slogan relevant to the theme of the competition should not be more than 8 words
- Should be Creative, Meaningful & not be plagiarised
- The team have to present 10 slogans in a poster on the day of competition

NOTE:

- Team should have Maximum 05 Members
- The poster should be 5x2 size
- The decision of the organizers / competition judges will be final and no contestation in this regard will be entertained.
- First Prize Rs.500/- All participants will get certificates

Date: 10th March 2022
Time: 10:00 AM
Venue: Yuvalaya

Contact: MALLAMMA T 82775 43949 MEDHINI H 72295 12414 LOHITA 83667 42227

All are Co-ordinally Welcome

"A strong woman knows she has strength enough for the journey, but a woman of strength knows it is in the journey where she will become strong."

- Amy Poehler

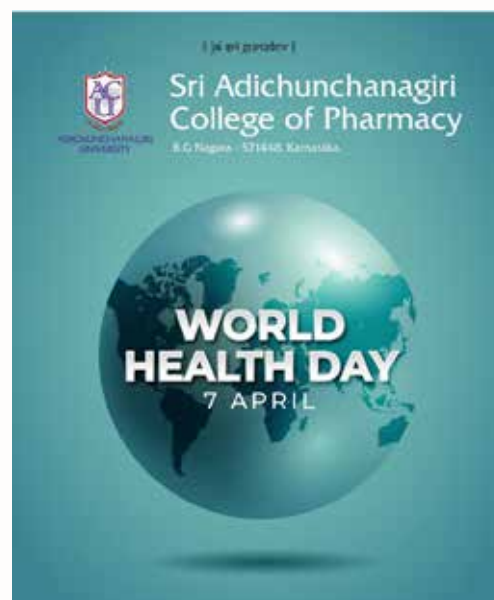

Pariksha Pe Charcha - 2022

'Pariksha Pe Charcha 2022' an online student interactive session by Prime Minister Sri. Narendra Modi was held on 1st April 2022. SACCP made all the arrangements to watch live address of Hon'ble Prime Minister of India on at Yuvalaya for the Students, teachers, and staffs who were actively participated in the program.

World Health Day

The awareness about the good health in society have been spread on the occasion of 'World health day' on 7th April 2022 by distributing the digital leaflet in social media.

TB Awareness Programme

Department of Pharmacy Practice, conducted TB Awareness Programme on 24th March 2022 in association with NTEP unit of AIMS, NSS unit of SACCP & AIMS and Rotary Club B.G Nagara at Srirangapura. TB Risk Assessment was done by the students on door-to-door basis followed by educating them on correct usage of medicines and safe disposal of expired drugs. Leaflets and pamphlets were distributed to the people on Tuberculosis. The formal gathering was addressed by the dignitaries from AIMS and SACCP, ACU. Dr. Shashikanth, Nodal Officer, NTEP & Associate Professor, Department of Community Medicine, Dr. Shashikiran, Nodal officer, Unnath Bharath Abhiyan and Associate Professor, Department of Community Medicine and Mr. Kumaraswamy,

Associate Professor, Department of Pharmacy Practice addressed the gathering on Tuberculosis and various schemes for TB patients. Dr. Jeet Bahadur Moktan and Mr. Renukaradhya Chitti, Ph. D Scholars of Department of Pharmacy Practice, highlighted on Patient Safety and Antibiotic Resistance as well. A Help-Desk was set up for counselling the people on Tuberculosis with proper aids. V Pharm. D Students performed Role Play to spread the awareness about the TB. Various games were conducted for the villagers and children. The students along with the faculties of Pharmacy Practice and Asha workers have visited around 70 houses in the village. A total of 80 Pharmacy students and medical students actively participated in the program.

Pharmaceutical Industry-academia Conclave

One day workshop on “Pharmaceutical industry-Academia conclave” was organised by IPA KSB in association with KDPMA at MSRUIAS on 9th April 2022 at M.S Ramaiah Medical College, Auditorium, Bangalore. 28 UG, PG, PhD students and faculty of SACCP participated in the conclave. During this SACCP has signed two MOUs with “Group Pharmaceuticals & Ce Chem Pharmaceuticals” for collaborative Research/ Projects Job/training etc. Deliberations during workshop were followed by panel discussion comprising of Industry and academic experts on Academic institutions catering to the needs of Pharma industries.

Pharmaceutical Industry - Academia Conclave

Date : 09th April 2022
Venue : M.S. Ramaiah Medical College Auditorium

Around 200 students and faculty got benefitted from this workshop.

Evidence Based Medicine

Department of Pharmacy Practice, Sri Adichunchanagiri College of Pharmacy, organised a guest lecture on the Topic 'Evidence Based Medicine' by Ms Viji PC and 'Research implications in Clinical Pharmacy' by Mr Rashid on 19th October 2022.

Demystifying the Intricate Process of Research Methodologies, Scientific Writing, and Publishing

Department of Pharmacology of Sri Adichunchanagiri College of Pharmacy, ACU, has organized "An Interactive Regional Workshop on Demystifying the Intricate Process of Research Methodologies, Scientific Writing, And Publishing" on 15th December 2022. Resource Persons was Dr. G. Jagadeesh, Dr. P. Balakumar, Dr. K Byrappa, Dr. B.N. Srikumar, and Dr. N. Raghavendra Naveen from National and International Universities have delivered their knowledge and skill on the theme of the workshop. 200 candidates participated and benefited.

Role of Pharmacologist in Research

Department of Pharmacology of Sri Adichunchanagiri College of Pharmacy - ACU, has organised a guest lecture on "Role of Pharmacologist in Research" on 22nd December 2022. The Resource person was Dr. Shivakumar Swamy, Ex-Chairman PG BOS RGUHS, Principal & Dean, Mallige College of Pharmacy Bangalore. All PG Students of the Pharmacology Department have participated.

Preclinical and Clinical Studies of Novel Nutraceuticals

Department of Pharmacology, of Sri Adichunchanagiri College of Pharmacy, ACU, Organized a guest lecture on the topic "Preclinical and Clinical Studies of Novel Nutraceuticals" on 28th December 2022. The resource person was Dr. Y. S. Suhas, Head- Laboratory animals and Preclinical Services, Vaarunya biolabs Pvt. Ltd., Bangalore, Karnataka, India. He explained the importance of OECD guidelines, TGA, IVC cages, OESPP harmonized test guidelines and various aspects of Preclinical and Clinical Research.

Overview of Pharmaceutical Industry and Quality Assurance

Department of Pharmaceutical Chemistry and Analysis, of Sri Adichunchanagiri College of Pharmacy, ACU, Organized a seminar on the topic "Overview of Pharmaceutical Industry and Quality Assurance" on 23th December 2022. The resource person was Mr. Sagar MS, QA controlled Docs Coordinator-Regulatory, Labcrop Drug Development, Bangalore, Karnataka, India. He explained the Overview of current Pharmaceutical Industry and the significance of Quality Assurance.

Sigma Plot 15 as an Educational Tool

Department of Pharmaceutics of Sri Adichunchanagiri College of Pharmacy organized a webinar on Sigma plot 15 as an educational tool on 26th December 2022. Mr. Kiran Bhandary, Technical

Associate of InPixon presented the applications and utilization of SigmaPlot 15. In his presentation, he focused on creating different graphs, various types of statistical analysis, the generation of a polynomial equation, and various tools for enzymatic kinetics. Around 40 students, research scholars, and faculties were attended this webinar.

Memorandum of Understandings (MoU's)

- ◆ CORMIL, ACE of SACCP has signed a MoU with “Anand Laboratories, Bengaluru, for undergoing collaborative research work entitled “Novel invitro detection test of COVID 19. Research Head Dr C N R Murthy has signed the MoU, & Dr Manish Majumder Inventor of SACCP visited their facility on 18th March 22.
- ◆ A MoU have been signed on 11th April 2022, between association of Pharmaceutical Research (APR) and Sri Adichunchanagiri College of Pharmacy, ACU for establish a frame work for International Conference collaboration for organizing the conference in recent times.

The aim of this MOU is for co-hosting an upcoming international conference scheduled in November 2022.

- ◆ On 28th April 2022, ACU signed the MOU with Avenida, in presence of Honourable Vice Chancellor Dr. M A Shekar, ACU and Dr. C K Subbaraya, Registrar, ACU, and Dr. B. Ramesh B, Principal, Innovation with the scope of collaborate and support of organisation in development, patent, research, innovation, start-up, internship etc and also to provide training to pharmacy students in the field of Clinical Research, Pharmacovigilance etc.

- ◆ A Memorandum of Understanding (MoU) between Goa- Centre of Excellence in Intellectual Property (G-CEIP) and Adichunchanagiri University (ACU) was signed on 8th July 2022. The MoU was exchanged between Prof Dr M A Shekar, Vice Chancellor, ACU, and Dr. Umesh Bankar, Founder G-CEIP and President, Banakar Consulting

Services, Westfield, IN 46074, USA. Dr. C. K Subbaraya, Registrar, ACU, B G.Nagara Dr B Ramesh Principal and Dean, , Dr Prakash Goudanavar, Prof & Head and Dr. Vedamurthy Joshi, Asso Prof Incharge ACE were present. The objective of this MOU is to express the willingness of both parties to engage in an effort to achieve several main objectives to induce the spirit of inquiry in translating theoretical science into innovative products.

- ◆ Adichunchanagiri University-SACCP and ADVITY research, Hyderabad, have signed a MoA (Memorandum of Agreement) for knowledge sharing and expertise in the category of academics and research collaboration on 30th September 2022. Dr.

Rajendra Prasad M, Managing Director & CEO, Mr Vasudev Sureddy, Executive Director & CEO, Mr. Raja Agnihotri, Chief Strategy Officer & Dr Ramesh B Dean Faculty of Pharmacy & staff were present during this event.

CONTINUOUS PHARMACY EDUCATION

Webinar Series...

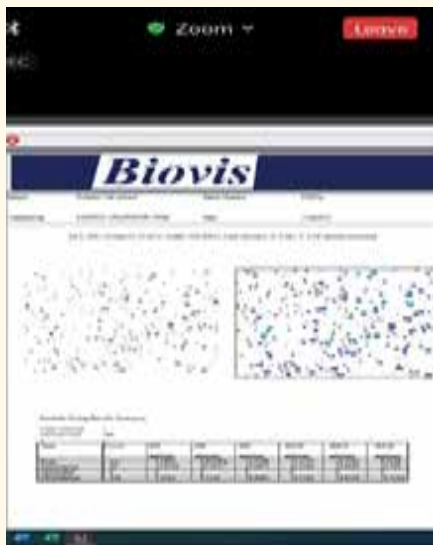

I. Case Based Learning

Department of Pharmacy Practice, organised a Webinar on "Case Based Learning" on 7th February 2022 for IV & V Pharm. D Students & Pharm. D Interns. The Speaker was Dr. Girish Thunga, Assistant Professor, Department of Pharmacy Practice, MCOPS, MAHE, Manipal. Nearly 70 students were attended the webinar.

II. Handling The Particle Size Analyser

Dept. of Pharmaceutics, CORMIL & CMPAT jointly organized an online training session on 23rd April 2022 for handling the particle size analyser (Biovis PSA 2000). Mr. Nikhil Thambe, from Expert Vison Pvt Labs delivered the session. Faculty, Research scholars, PG students (30 members) attended the session and clarified their doubts.

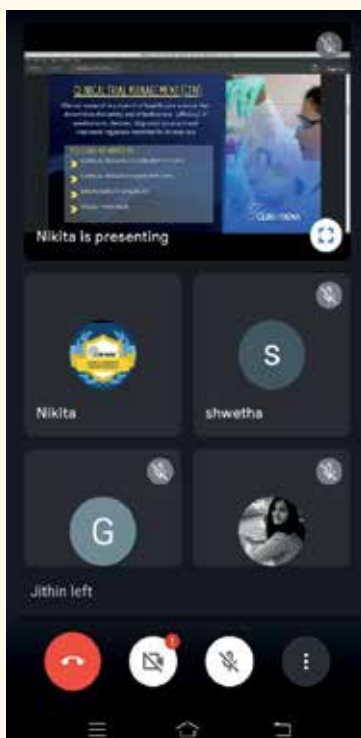

III. Role And Significance of Documentation In Pharmaceutical Regulatory Submission

Dept. of Pharmaceutical Chemistry, organised a webinar on 'Role and significance of documentation in Pharmaceutical Regulatory submission' on 30th April 2022. The resource person was Mr. Krutarth Kothari, General Manager, regulatory and Scientific Affairs, Novumgen Privet Ltd. The VIII sem B Pharm, PG, research scholars and faculty members were participated in the webinar.

IV. Importance of Professional Training & Readiness for Successful Industrial Placement

Department of Pharmacy Practice in association with CLINI INDIA organised a webinar on Importance of professional training & readiness for successful industrial placement on 20th July 2022 through Google meet. The resource person was Ms. Nikita Jogewar, Associate manager, CLINI INDIA. In the session Ms. Nikita Jogewar discussed about the Importance of professional training & readiness for successful industrial placement. She also discussed the industry expectation from a fresher and how actually the placements go on. The session was attended by nearly 80 students from Pharm D.

V. Digital Marketing for Early-stage Start-up

Adichunchanagiri Centre for entrepreneurs (ACE) in association with Sri Adichunchanagiri College of Pharmacy have conducted a webinar on 8th September 2022 on the topic 'Digital marketing for early-

stage start-up'. The speaker was Anjori Parandekar, Co-founder and Director OpEx Accelerator Pvt Ltd. Around 70 students and faculty members were participated in the webinar and benefited with the knowledge of digital marketing start-ups.

VI. Entrepreneurship and Innovation As Career Opportunity

Institution Innovation Council (IIC) and Adichunchanagiri Centre for Entrepreneurs (ACE) of Sri Adichunchanagiri College of Pharmacy organized workshop on Entrepreneurship and Innovation as Career Opportunity under the aegis of Institution Innovation Council 5.0 on 13th October 2022. The Speaker was Mr. Lokesh

B S, Founder Director, Agastya Academy, Bangalore. In his talk he elaborated the changing landscape of employability and emerging domains. He emphasized upon how to develop and foster the spirit of entrepreneurship.

Around 250 students and faculty got benefitted by this workshop.

VII. Implementation ISO 21001:2018, the Only One International Educational Management System

Sri Adichunchanagiri College of Pharmacy have organised a sensitization session (webinar) for the faculty members on 8th September 2022 in the topic 'Implementation ISO 21001:2018, the only one international educational Management system towards the requirement of NAAC Accreditation'. The resource person was Mr. S V Sreeraj, ISO, AAA auditor and NAAC advisor and Director- technical & operations- training & management system consultant. Nearly 25 faculties including all HoD's of various departments were participated in this session.

VIII. Community Connect-pharmaceutical Care Everywhere

Department of Pharmacy Practice of Sri Adichunchanagiri College of Pharmacy organised a webinar to initiate a certificate course on "Pharmaceutical Care Services in Community Setting" on 15th October 2022 at Yuvalaya. Programme was initiated with an introductory remark by Mr Satish Kumar BP, Associate Professor. Dr Anantha Naik Nagappa, Founder and President of "Association of Community Pharmacist in India" and Dr Mahadev Bhat, Clinical Pharmacist, USA delivered a guest lecture on "Community Connect-Pharmaceutical Care Everywhere". This was followed by an interactive session which was headed by Principal Dr B Ramesh. The session was concluded by Dr. Rajesh Venkataraman, HOD of Dept. of Pharmacy Practice. Vote of thanks was delivered by Ms. Lohita of V Pharm D Students & staff Audience enthusiastically participated in the programme.

Guest Lecture Series...

I. Chronopharmacology

Department of Pharmacology, Sri Adichunchanagiri College of Pharmacy, B.G Nagara has organized a Guest Lecture on "Chronopharmacology" on 14th March 2022. Resource Person was Prof. P.D Gupta. Former Director Grade Scientist, Centre for Cellular and Molecular Biology, Hyderabad (India). In this interactive session Prof. P.D Gupta covered various valuable topics such as application of Chronopharmacology in research, various types of therapeutic methods for the upcoming future, importance of patents and publication, research collaboration at international level etc. followed by interaction session with PGs Research scholars and faculty members. VI & VIII SEM B. Pharm students, PGs, PhD Scholars and faculty members of SACCP have attended the session and highly benefited from the presentation.

"In modern Pharmacology, it's so clear that even if you have a fixed dose of a drug, the individuals respond very differently to one and the same dose".

- Arvid Carlsson

II. Network Pharmacology Approach of Traditional Medicine

Department of Pharmacology, Sri Adichunchanagiri College of Pharmacy has organized a Guest lecture on "Network Pharmacology approach of Traditional medicine" on 20th May 2022. The resource Person was Dr. Sanjay Ugare, Professor, KLE College of Pharmacy, Belagavi. In this interactive session he covered various valuable topics such as molecular docking for herbal medicine, various software to check phytoconstituents and their target proteins, targeting diseased proteins with suitable constituents etc. All PGs, PhD scholars of the department have attended the session and highly benefited from the presentation.

Academia - Industry Interactions

Session - I: Pharma Needs

Organised an interactive session with Mr. Raja Agnihotri, on 1st April 2022. Faculties were actively involved and discussed regarding valuable topics. The resource Person was Mr. Raja Agnihotri, Business Development, Marketing Business Strategy. Clinical, Preclinical Formulation R&D. CDMO and Pharmaceuticals. In this session Mr. Raja Agnihotri has covered valuable topics.

The poster for Session I features the Sri Adichunchanagiri College of Pharmacy logo at the top. Below it, the text reads "Organizes an Interactive Session with". A circular portrait of Mr. Raja Agnihotri is shown on the left. To his right, his name "Mr. Raja Agnihotri" is written in a large, bold, red font. Below his name, his expertise is listed: "Business Development, Marketing, Business strategy, Clinical, Preclinical, Formulation R&D, CDMO and Pharmaceuticals". Underneath this, the "Objectives:" are listed as four numbered points. At the bottom, two boxes provide the "Date: 01, April 2022" and "Timings: 3:00 PM" on the left, and "Venue: Board Room Yuvalaya" on the right.

Sri Adichunchanagiri College of Pharmacy

Organizes an Interactive Session with

Mr. Raja Agnihotri

Business Development, Marketing, Business strategy, Clinical, Preclinical, Formulation R&D, CDMO and Pharmaceuticals

Objectives:

1. New dosage form and its regulatory aspects
2. Key aspects of student/staff exchange program
3. New guidelines for Clinical Trials
4. Nurturing change makers - Inspiring youth to build impactful solutions for the community

Date: 01, April 2022

Timings: 3:00 PM

Venue: Board Room Yuvalaya

Session - III: Current Trends and Career Opportunities

Organized an interactive session on Current trends and career opportunities in Pharma Sector with Mr. Sunil S Chiplunkar, VP- Business Development, Group Pharmaceuticals, Bengaluru, India.

The poster for Session III features the Sri Adichunchanagiri College of Pharmacy logo at the top. Below it, the text reads "Organizes an Interactive Session with". A portrait of Mr. Sunil S Chiplunkar is shown. Below his portrait, his name "Mr. Sunil S Chiplunkar" is written in a large, bold, orange font. Underneath his name, his title and company are listed: "Vice President - Business Development, Group Pharmaceuticals, Bangalore". Below this, the session topic "Current Trends and Career Opportunities in Pharma Sector" is written in white, followed by the date "13, April 2022" and the time "10:30 AM Onwards at Yuvalaya, SACCP".

Current Trends and Career Opportunities in Pharma Sector

13, April 2022

10:30 AM Onwards at Yuvalaya, SACCP

Session - II: Aspects of Research in Clinical Pharmacy

Department of Pharmacy Practice, have organized an interactive session on 5th April 2022 for the Ph. D research Scholars with Muhammed Rashid PP, Ph. D research scholar, Department of Pharmacy Practice, MCOPS, MAHE, Manipal. The session dealt on the various aspects of research in Clinical Pharmacy prevailing and future insights on the advancement of research in the field of Pharmacy Practice.

Session - IV: Near Infrared Spectroscopy

Dept. of Pharmaceutical Chemistry and Analysis Sri Adichunchanagiri College of Pharmacy, B G Nagara, has organized an Interactive session on the topic 'Near Infrared Spectroscopy' on 24th May 2022. PG Students and Faculty members of Department, attended the session. The session was useful to the students. The resource person was Dr. M.K Ranganatha. Prof. and HoD, Department of Pharma Analysis, Karunanidhi college of Pharmacy, Bangalore-35.

Session - V: Drug Delivery Techniques

Department of Pharmaceutics and Regulatory Affairs of Sri Adichunchanagiri College of Pharmacy, B G Nagara, organized an interactive session on the topic "Drug Delivery Techniques" by Dr. Sathish C S, Professor and Head, Department of Pharmaceutics, PES College of Pharmacy on 24th May 2022. Pharmaceutics PG students had a very good interaction on recent updates in the field of drug delivery and future prospective.

"Medicine is not only a science; it is also an art. It does not consist of compounding pills and plasters; it deals with the very processes of life, which must be understood before they may be guided."

- Paracelsus

Session - VI: Challenges in Implementation of New Regulations in Pharma Industry

Department of Pharmaceutics and Regulatory Affairs, of Sri Adichunchanagiri College of Pharmacy organized an interactive session on the "Challenges in implementation of new regulations in pharmaceutical industry for regulatory Dossier filings" by Dr. M P Venkatesh, Associate Professor, JSS College of Pharmacy, Mysuru on 24th May 2022. Regulatory Affairs PG students and faculties interacted with Dr. Venkatesh discussing the recent developments in Indian regulations under the Drugs and Cosmetics Act.

Session- VII: Career Opportunities for Pharma Chemistry and Pharma Analysis Graduates

On 15th June 2022, Dept. of Pharmaceutical Chemistry and Analysis has organized an Interactive session on the "Career opportunities for Pharma Chemistry and Pharma Analysis Graduates" with Dr. Shankar Alegalon, Professor & Head, Dept. of Pharmaceutical Chemistry, KLE College of Pharmacy, Belagaum, PG Students of Department, attended the session.

Session- VIII: Scope of Pharmacologist on Industry Perspective

On 15th June 2022, Department of Pharmacology, has organized an interactive session on "Scope of Pharmacologist on industry Perspective" for all PGs and PhD scholars. Resource Person was Dr Murali Badanthadka, Professor and Deputy Director- NUCARE, Nitte University, Mangalore. All PG and research scholars took part of this interactions.

Session - IX: Skill Sets Required by A Professional Student for Entering to an Industry

Department of Pharmaceutics and Regulatory Affairs, organized an interactive session on 15th June 2022 with Dr. Vijay Joshi to M. Pharm and B. Pharm final year students. Dr. Vijay Joshi, Professor and Head, Government College of Pharmacy, Bangalore and Dean, Faculty of Pharmacy, RGUHS, highlighted on skill sets required by a professional student for entering to an industry, and also discussed how one can choose their Postgraduation subjects.

Session - X: Business Development and Supply Chain Integrity

Department of Pharmaceutics and Regulatory Affairs, organized an interactive session on 15th June 2022 with Mr. M K Umakanth, Associate Vice President - Supply Chain, Micro Labs Ltd., to M. Pharm and B. Pharm final year students. He emphasized on Pharma MBA and how Business development and Supply Chain Integrity works in pharmaceutical companies.

Session - XI: 'Ascertaining IPR Opportunities in Pharmaceutical Sciences'

Sri Adichunchanagiri College of Pharmacy-ACU- organized an interactive session on 'Ascertaining IPR Opportunities in Pharmaceutical Sciences' with Dr Umesh Banakar on 09th July 2022. In his presentation he focused on IP and IPR differentiation, criteria to apply for IPR, differences in IPR of various territories and opportunities for IPR activities in pharmaceutical Sciences. Around 40 PG, Pharm. D students, interns and RS were attended this session

Session - XII: Startup Virtual Presentation Programme

ACU, StartUp virtual Presentation programme was conducted on 8th July 2022 organised by Adichunchanagiri centre for entrepreneur (ACE). Nine faculty members have presented the innovations to the jury members. The juries were Anjori Parandekar, co-founder Opex start-up Accelerator and Sudhir Arali, CEO, NETRARIT Foundation, Mumbai.

Session - XIII: Nuclear Magnetic Resonance Interpretation

Dept. of Pharmaceutical Chemistry and Analysis of Sri Adichunchanagiri college of Pharmacy has organized an Interactive session on the topic 'Nuclear Magnetic Resonance Interpretation' on 26th August 2022. PG Students and faculty members of department, are actively Participate in the session. The session was helpful to the students. Resource person was Mr. Sandeep Suryabhan Jagtap, Product Application Specialist, Lab India analytical Instruments Pvt Ltd., Bangalore.

Session - XIV: Interactive Session on NAAC Criteria

Sri Adichunchanagiri College of Pharmacy, ACU organised and interactive session with Dr. Dharmadhikari NS, Educationist, member of NAAC and UGC committee on 13th December 2022. All NAAC criteria heads and other in charges were participated in the interactions and benefited with imputes from the resource person.

Workshop Series...

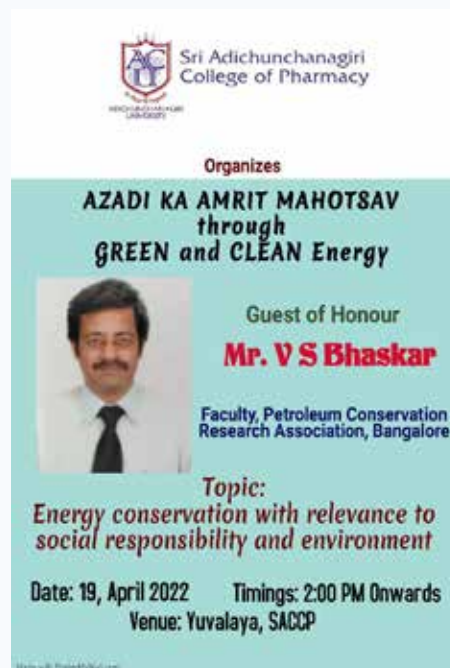

I - Case Based Learning and Systematic Review and Meta Analysis

Department of Pharmacy Practice, organised one day workshop on "Case Based Learning "and "Systematic Review and Meta Analysis" on 5th April 2022 for V Pharm. D, M Pharm, Pharm. D Interns and Ph.D. Scholars. Resource Person: Muhammed Rashid PP, Ph. D research scholar, Department of Pharmacy Practice MCOPS, Mahe, Manipal. The session highlighted on case-based learning followed by another hands-on training session on systematic review and meta-analysis. The session was attended by nearly 80 students.

II - Azadi Ka Amrit Mahotsav Through Green & Clean Energy

SACCP have organized a workshop on the theme 'Azadi ka Amrit Mahotsav Through Green & Clean Energy' on 19th April 2022. First year Pharm D and PG Students are actively Participated in the workshop. The workshop was helpful to the students. The certificates were distributed to all the participants, After the completion of the workshop Quiz was conducted by the Speaker in that 2 students got the first place and 5 have got the second place. The resource person was Mr. V. S Baskar. Faculty, Petroleum Conservation Research Association, Bangalore, on a topic 'Energy conservation with relevance to social responsibility and Environment'.

III - Clinical Pharmacy, Health Informatics and Leadership

Department of Pharmacy Practice in association with Avenida Innovations organized One Day Workshop titled "Clinical Pharmacy, Health Informatics and Leadership" on 28th April 2022 at Yuvalaya. The session I, was taken by Dr. Karthik Rakam, Co-founder & CEO, Avenida Innovation. During his session he briefly discussed various case studies seen by internal medicine, Neurology, intensive care and infectious disease team and also, he explained about how to analyse a case study, identify and resolve medication errors or drug related problems. The session II, was by Dr. Ashwani Dhar, Co-founder & President, Avenida Innovation, USA. During the session he highlighted the role of Pharm D graduates in the health sector also discussed about the importance of adopting information technology supporting evidence - based medicine to continuously improve the quality of care. Around 80 students including Pharm D, PGs and RSs actively participated and got benefited from the workshop. At the end of the program all the participants were provided with the participation certificate. During the break, the team also visited AH & RC and had a discussion with the hospital administrative officers.

IV - Dissertation Protocol Writing

Department of Pharmaceutics and Regulatory Affairs, organized a workshop on "Dissertation Protocol Writing" to the I Year Postgraduate students of the department on 20th June 2022. Mr. Venugopal N, Assistant Professor delivered lecture on Research and protocol writing. Dr. Prakash Goudanavar, Professor and Head delivered lecture on Basics for dissertation protocol writing and literature review. Dr. Naveen Raghavendra, Assistant Professor delivered lecture on Writing research methodology and referencing style. Students got knowledge on research and protocol writing.

V - Role of Dissolution Testing in Drug Development: Unique Application of IVIVC in Generic - Case Studies

Department of Pharmaceutics and Regulatory Affairs, organized a workshop on "Role of Dissolution testing in drug development: Unique application of IVIVC in generic - Case Studies" on 21st June 2022. The speaker was Dr. Umesh V Banakar Professor and President, Banakar Consulting Services, Westfield, USA. It was one day session discussing various aspects of IVIVC, few of them include, Impact of IVIVC on drug development, Importance of IVIVC in current clinical research, IVIVC models and examples, Regulatory aspects of IVIVC on QC and QA during Generic Drug Development etc.

The poster is for a one-day workshop organized by Sri Adichunchanagiri College of Pharmacy. The title is "ROLE OF DISSOLUTION TESTING IN DRUG DEVELOPMENT: UNIQUE APPLICATIONS OF IVIVC IN GENERICS - CASE STUDIES!". The speaker is Dr. Umesh V Banakar, PhD, Professor and President of Banakar Consulting Services, Westfield, IN 46032 USA. The workshop is on Tuesday, 21 June 2022, from 10.00 AM. The venue is Lecture Hall, Yuvalaya, SACCP. The poster includes a diagram of IVIVC and a list of topics: IVIVC Models, IVIVC Applications, IVIVC Examples, and IVIVC Case Studies.

VI - Career Skills

Institutional placement team has organised two days' workshop on Career skills on 13-14th June 2022 for VIII sem B Pharm and IV sem M Pharm students.

The poster is for a two-day workshop on "Career Skills" organized by the Training & placement Cell of Sri Adichunchanagiri College of Pharmacy. The dates are 13th & 14th June, 2022, from 10 AM to 5 PM. The venue is Yuvalaya Classroom. The stakeholders are 8th Semester B Pharm & 4th Semester M. Pharm. The workshop is by Mr. Vishvesh, ARIVU Skill Development Academy, Bangalore.

VII - ATR-IT (Attenuated Total Reflection Infrared Spectroscopy)

Dept. of Pharmaceutical chemistry and Analysis of Sri Adichunchanagiri College of Pharmacy have conducted a demo on "ATR-IT (Attenuated Total Reflection Infrared Spectroscopy)". The resource person was Mr. Sandip Suryabhan Jagtap, Product application specialist, Lab India Analytical Pvt. Ltd, Bangalore on 12th August 2022. All PG attended the demo and learnt the technique.

VIII - Awareness on Mental Health - Through Life Skills Approach

Sri Adichunchanagiri College of Pharmacy (SACP), ACU, in association with Department of Psychiatry and Clinical Psychology, AIMS jointly organised a workshop titled 'Awareness on Mental Health - through life skills approach' on "World Mental Health Day- 2022 at AIMS, on 10th October, 2022. Dr. Shivakumar. B. K, head of the department of Psychiatry welcomed the gathering and gave opening remarks. He spoke on this year's theme - 'Make mental health and wellbeing for all a global priority '. The coordinator from SACP Dr. Ravindra, faculty of pharmacy practice was also present on the occasion. The first session was moderated by Dr. Tejaswi Prithviraj. H. K, Assistant professor and Dr. Vaibhavi. P. S, Senior resident in the department of Psychiatry. Students from Pharm

D and D Pharm courses participated in the event. It was on the topic 'Positive mental health- caring for the mind and body'. The participants prepared collage-based charts on the importance of mental health and physical health in the group activity and presented them. The second session was on 'Positive thinking (Thoughts, feelings and actions) - Things will be OK' This session was moderated by Ms Madhushree. A.Y, clinical psychologist and Mr. Ganesh Lakshman, psychiatric social worker. The participants were III MBBS students and workshop included group exercise and brainstorming activity on significance of positive thinking. The program ended with vote of thanks by Dr. Vinay H.R, Associate professor in the department of Psychiatry.

IX - A Step- By- Step Approach on Efficient Scientific Writing and Successful Publishing in an Indexed Journal

Department of Pharmacology has organized a one-day interactive workshop on "A step- by-step approach on efficient scientific writing and successful publishing in an indexed journal" on 14th December 2022. Resource Person: Prof. Balakumar. P, Consulting Editor, Pharmacological Research-Elsevier, Professor of Pharmacology, Pannai College of Pharmacy. Dindigul, India.

THE CHEMISTRY OF HENNA

The red-orange dye from the leaves of the henna plant contains lawsone. Lawsone reacts chemically with keratin in the skin, leaving a stain that lasts for 2-6 weeks.

LAWSONE

PPD

Black henna is red henna which has had the dye paraphenylenediamine added to it. PPD can cause allergic skin reactions, and its use in black henna is discouraged.

SCIENTIFIC AND SHORT STORIES

Echo of Life

A father and a son were walking on the mountain. Suddenly son falls, hurts himself and screams aaaahhh! To his surprise, he hears the voice repeating some where in the mountain. He yells “who are you?”

He receives the answer “who are you?” and then he screams back to the mountain “I admire you”. The voice answers “I admire you”.

Angered at the response, he screams “coward”. Again, he receives the same. He looks at his father and asks “what’s going on?” The father smiles

and explains, people call this echo, but in reality, this is life. It gives back everything that you say and so our life is simply a reflection of our actions. If you want more competence in your team, improve your competence. If you want more love in world, create more love in your heart. This is applicable for all aspects of our lives. Life gives back what you have given to it.

MORAL: your life isn’t a coincidence, it’s a reflection of yourself.

Darshan R, II Pharm D

Knowledge is Power

Early men lived almost like other animals. But man has intelligence, so he made use of it to learn from experience. This helped him not only to survive but also to control or rule. This is true even in the present day. Knowledge of the enemy’s

movement and intention helps to win wars. Knowledge of resources helps in development. Knowledge of language places person at a prominent place. Youngsters

should always remember this. Life must be an endless search for knowledge. Material gains have a limit. Knowledge must be created in children. Once they know how knowledge is of help, they will not give up on the search. Their thirst will not be quenched. At first, knowledge has to be imparted, but soon learners must be encouraged to gather it themselves. Seeing wealthy people yielding power and influence, one may think money is power, it is not. It is knowledge that is power.

Priyanka Raj K R

Language and Spirituality

Language and spirituality; the inseparable friends for all eternity.

All the major divinely inspired religions share a prominent common quality- they are language centric. Theists across cultures believe that the divine rains nourish the barren soils of our hearts. These sacred words resonate within the self on individual level and progress on to determine the shared cultural consciousness or the least for cynics to generate its motif in the cohesive weaving of our social fabric and infiltrate our sense of morality and values.

Heidegger, an exquisite existential philosopher pointed it beautifully that “Language is the house of being.” Moreover, the modern revelations in cognitive linguistics clearly indicate that language affects our perception of reality. Could it perchance relate to the Kant’s theory of pure reason from a linguistic approach? Recent studies clearly show certain aboriginal cultures are efficient in identifying different shades of a colour and find it hard to demarcate between two different colours if the words are arranged likewise in their language. These experiments have been reproduced many times and serve as a source of awe and wonder.

To Ludwig Wittgenstein, the most celebrated analytical philosopher of 21st century, “The limits of my language mean the limits of my world”. It is no surprise that Plato feared sophistry and the fact western sciences gave a central importance to language arts. Liberal arts coming from the words “Liberos” means to free individual and enter society via rhetoric. Noam Chomsky, a celebrated American Linguist rejected the “Blank Slate” model by the likes of Locke and Voltaire and suggested the Hypothetical Acquisition Device- that there is something special about humans as species and it is language that makes us so. The so-called Galilean challenge that bothered both Descartes and Galileo at their respective times was the fact that language could not be mechanical. How come unheard statements are uttered out by children- the permutations and combinations of semantics and deep-seated semiotics somehow add to the complexity of puzzle and make it more ambiguous. Every major civilisation; for instance, the Arabs being landlocked and having little to no nature to explore developed a highly sophisticated language- the source of their pride, beauty and creativity crafted through poetry. The Chinese likewise,

developed their language and culture considering the inflections and nuances. Coming to prosody, Punjabi would be a classic example whose song audience is universal. The philosophical realities embedded in the very lexicon of Sanskrit language fascinates the learner. Therefore, a lot can be said about every language.

But the juicy part of the day is that we humans are meaning centric being- A species which cannot just rely on experiments and empiricism – that which needs mythos and stories- which needs religion and spirituality. Because deep down it adheres to our natural self. We may be biochemical entities but we nevertheless have an immaterial reality, which seeks meaning, aspirations, beliefs, and consequences. And obviously people do lie on spectrum. Words – the vehicles of meaning sometimes have a robust effect and shake the wobbly grounds inside all of us – maybe while reading a book, listening to a sermon, or conversing with your friends. Language undeniably connects us to a higher power, a higher purpose, and a higher I.

Imad Ul Haq, B.Pharm I Sem

Role of Pharm D in Better Patient Care: Perspective of Indian Health Care Practitioners

Doctor of Pharmacy or Pharm D is a pre-PhD, post graduate professional degree with a complete one year internship training in speciality units. During the sixth year, they are supposed to provide the clinical pharmacy services in general medicine for six months and in any other speciality clinics for rest of the year.

The course has been introduced in India and made the Pharm D regulations by PCI under section 10 of the pharmacy act 1948 in 2008. Till today, Pharm D is under recognised even though it is the only pharmacy programme having direct contact with the patients and providing patient-oriented services, so this is a huge job among Indian Pharm D graduates.

Clinical Pharmacy and Clinical Pharmacist:

Clinical pharmacy practice is the practice of pharmacy in a multi-disciplinary health care team which is oriented to achieve the treatment goals by ensuring the right patient receives right medication in the right dose, prevent the drug-related problems through medication chart review and achieving therapeutic goals by improving medication adherence through patient counselling.

Pharmaceutical services provided by the pharmacist includes medication history interview, ward round participation, prescription order review/ medication chart review, drug information service, medication error

monitoring, assessing, preventing and managing the drug interactions, ADR assessment and management, clinical review, selection of drug therapy, therapeutical drug monitoring, promoting the safe and quality use of medicine and the services in liaison with community pharmacies such as health screening camps, awareness programmes.

Clinical Pharmacist is less appreciated in direct patient care compared to both physicians and nurses even though most of the professionals identified that Clinical Pharmacist in an inexorable part of the medical team in proving the quality of patient care through their practice. They accept Pharm D is both private and government sector to provide better patient care and to improve medication adherence.

Researchers were approached by the professionals with a questionnaire. The survey completion was voluntary. Participants were able to decline their participation and did not receive any compensation for completing the survey. The study population was also asked to inscribe the information such as their name/initials, profession, qualification and the designation.

Our research suggests that Pharm D and Clinical Pharmacists can be an asset to the health care practice especially in India by practicing

as hospital clinical pharmacists in better patient care. They can provide the appropriate interventions to avoid the drug related problems and other irrational drug use. Most of the hospital Clinical Pharmacists were recommending the need of Clinical Pharmacists as their health care. Still there is more emergent need for more practical emphasised syllabus and curriculum to make the Pharm D graduates more employable.

Summary:

Pharm D has to be well recognised in India and needs to be considered as part of the health care team. It is very clear that all the Hospital Clinical Pharmacists identified and agreed that, Pharm D can play a vital role in all aspects of medication related activities which can turn into a better patient outcome. However, the current strategy of Pharm D curriculum and teaching methodology needs to follow the international standards in upcoming days.

Mohammed Uwais, 2nd Pharm D

SCIENTIFIC ARTICLES

Dengue fever is a globally important arboviral infection transmitted by mosquitoes of the *Aedes* genus (primarily

Aedes aegypti, but also *A. albopictus*), an insect found in tropical and subtropical regions. Dengue infection causes a range of severe and non-severe clinical manifestations. The incubation period is 3-14 days (average 7 days).

Dengue fever is caused by four antigenically distinct dengue virus serotypes: DENV-1, DENV-2, DENV-3, and DENV-4. All four have the capacity to cause severe disease. They are RNA viruses that belong to the *Flavivirus* genus/*Flaviviridae* family, which also includes the yellow fever virus, West Nile virus, Japanese encephalitis virus, and the St Louis encephalitis virus. Clinical features include fever, headache, myalgia/arthralgia, and skin flushing/rash, together with leukopenia, thrombocytopenia, and increased liver function. Severe thrombocytopenia,

haemorrhage, and plasma leakage are the key diagnostic features of the more severe forms of infection. Antigen-presenting dendritic cells, the humoral immune response, and the cell mediated immune response are involved in the pathogenesis. Proliferation of memory T cells and the production of pro-inflammatory cytokines lead to vascular endothelial

cell dysfunction, which results in plasma leakage. The concentration of cytokines such as interferon- γ , tumour necrosis factor- α , and interleukin 10 is

higher, and the levels of nitric oxide and some complement factors are reduced. NS1 is a modulator of the complement pathway and plays a role in low levels of complement factors. After infection, specific cross reactive antibodies, as well as CD4 and CD8 T cells, remain in the body for years. Infants can develop severe dengue fever during a primary infection (which is usually benign) owing to transplacental transfer of

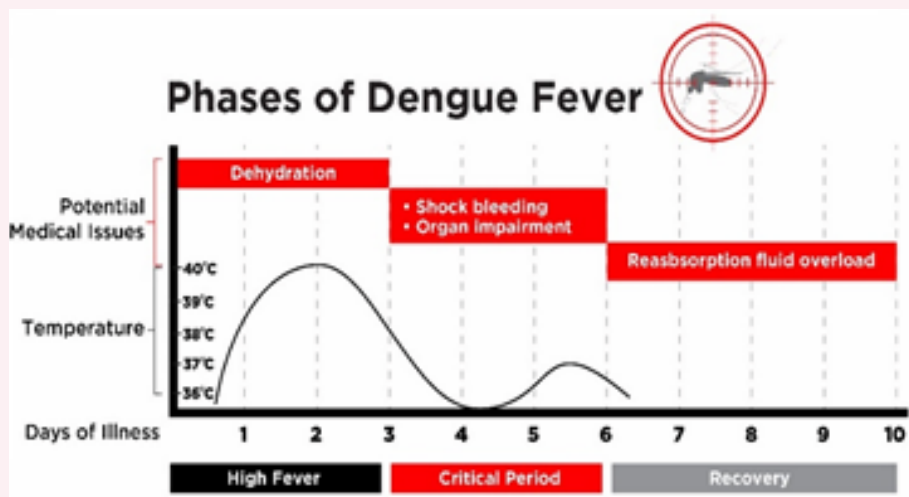

antibodies from an immune mother. This subsequently amplifies the infant's immune response to the primary infection.

Phases of infection:

Dengue infection has three distinct phases. The febrile phase is characterised by a sudden high grade fever and dehydration that can last two to seven days. The critical phase is characterised by plasma leakage, bleeding, shock, and organ impairment and lasts for about 24 to 48 hours. It usually starts around the time of defervescence (this does not always occur), typically days 3 to 7 of the infection. Patients with dengue haemorrhagic fever or dengue shock syndrome go through all three stages. The critical phase is bypassed in patients with dengue fever.

Physical examination

Diffuse skin flushing of the face, neck, and chest develop early with infection. This evolves into a maculopapular or rubelliform rash of the whole body, usually on day 3 or 4 of the fever. Blanching may occur when the skin is pressed. The rash fades with time, and during the convalescent phase appears as pallid areas. More major haemorrhage can manifest as epistaxis, gingival bleeding, haematemesis,

melaena, vaginal bleeding (in women of childbearing age), or bleeding from a venepuncture. Circulatory collapse (that is, cold clammy skin, rapid and weak pulse with narrowing of pulse pressure 20 mm Hg, capillary refill time greater than three seconds, reduced urine output) indicates the presence of shock and supports a diagnosis of dengue shock syndrome.

Management

The severity of infection should be assessed. If patients are not in the early critical phase (that is, with plasma leakage) they should be encouraged to take fluids orally (for example, approximately 2500 mL/24 hours for adults, or age-appropriate maintenance fluid requirement for children). If this is not possible, or patients enter the critical phase (indicated by rising haematocrit, hypoalbuminaemia, progressive leucopenia, thrombocytopenia, third space fluid loss, and narrowing of pulse pressure with postural drop), intravenous fluid replacement therapy with 0.9% saline (or Ringer's lactate) should be started using the

maintenance (M)+5% fluid deficit formula.¹⁷ Patients should be monitored closely throughout, including vital signs, peripheral perfusion, fluid balance, haematocrit, platelet count, urine output, temperature, blood glucose, liver function tests, renal profile, and coagulation profile. Pregnancy is a risk factor for higher maternal mortality and poor antenatal outcomes. The incidence of caesarean sections, pre-eclampsia, preterm deliveries, reduced birth weight, and vertical transmission of the infection is higher. Close observation and meticulous management is therefore important in this patient group. Fluid intake is the same as for non-pregnant women; pregnancy body weight should be used in the formula. As pregnancy is associated with various physiological changes such as high pulse rate, low blood pressure, wider pulse pressure, decreased haemoglobin and haematocrit values, and decreased platelet count, baseline variables should be noted on the first day of infection and subsequent results interpreted with caution.

It should be remembered that other pregnancy related conditions, such as pre-eclampsia and HELLP (haemolysis, elevated liver enzyme levels, and low platelet levels) syndrome, may also alter laboratory variables. Detection of plasma leakage (for example, ascites, pleural effusion) is difficult in pregnant women, and so early ultrasonography is recommended. As the tendency for children to develop dengue haemorrhagic fever or dengue shock syndrome is increased, laboratory variables such as haematocrit, platelet count, and urine output should be monitored regularly. Assessment of the severity of symptoms in infants aged less than 1 year is difficult compared with that in older children and adults. Infants have less respiratory reserve and are more susceptible to electrolyte imbalances and hepatic impairment. The plasma leakage that occurs in children may be shorter and respond faster to fluid resuscitation. Adjunctive therapies include Prophylactic platelet transfusions are rarely required (even with very low platelet counts) and are not recommended except in the presence of active bleeding. The clinical value of fresh frozen plasma, corticosteroids, intravenous immunoglobulin, and antibiotics is controversial and more evidence is required before they can be recommended.

Pallavi G, Pharm D, Pre-Intern

Epigenetics: The Science of Change

Your genes play an important role in your health but so do your behaviours and environment, such as what you eat and how physically active you are.

Epigenetics is the study of how your behaviour and environment can cause changes that effect the way your genes work. Unlike genetic changes, epigenetic changes are reversible and do not change your DNA sequence, but they can change how your body reads a DNA sequence. The epigenome integrates the information encoded in the genome with all the molecular and chemical cues of cellular, extracellular and environmental origin. Along with the genome,

the epigenome instructs the unique gene expression program of each cell type to define its functional identity during development or disease.

The epigenome also, in some sense, represents the ability of an organism to adapt and evolve through expression of a set of characteristics or phenotypes developed in response to environment stimuli. Epigenetic process are natural and essential to many organisms function, but if they occur improperly, there can be major adverse health and behavioural effects. Many types of epigenetics processes have been identified- they include, methylation, acetylation, phosphorylation, SUMOylation, perhaps the best-known epigenetic process, in part because it has been easiest to study with existing technology, is DNA methylation. This is the addition or removal of a methyl group (CH_3), predominantly where cytosine bases occur consecutively. DNA methylation was first confirmed to occur in human cancer in 1983, and has since been observed in many other illness and health condition. Another significant epigenetic process is chromatin modification.

Most epigenetic modification, by whatever mechanism, is believed to be eased with each new generation, during gametogenesis and after fertilization. However, one of the most startling reports published in 2005 challenges this belief and suggests that epigenetics change may endure in at least 4 subsequent generations of organisms. Your epigenetics changes throughout your life. Your epigenetics at birth is not the same as your epigenetics during your childhood or adulthood.

Not all epigenetics change is permanent. Some changes can be added or removed in response to changes in behaviour or environment.

Hephzibah Dsouza, 1st Pharm

New Outbreak in India

Children in India are being increasingly affected by the illness known as tomato flu, which has flu-like symptoms and rashes. The name is derived from the tomato-like blisters. The tomato flu virus is producing an outbreak in India after the pandemic caused by SARS-CoV-2 and its variations and monkey pox. In Southern India, specifically in the states of Tamil Nādu and Kerala, 100 children have been impacted so far. On May 6, 2022, the Kollam district of Kerala reported the first case of tomato flu. As of July 26, 2022, the local government hospitals had recorded the infection in more than 82 children under the age of five Anchal, Aryankavu, and Neduvathur are the other areas of Kerala that are impacted. The neighbouring states of Tamil Nadu and Karnataka were made aware of this endemic viral illness. The Regional Medical Research Centre in Bhubaneswar also reported that 26 children (aged 1 to 9 years) in Odisha had the illness.

Other than Kerala, Tamil Nadu, and Odisha, no other parts of India have experienced the virus's effects to date. Indian health authorities have not yet determined the etiological agent. It may be a subtype of hand, foot, and mouth disease (HFMD), according to experts.

A serious infectious condition known as hand, foot, and mouth disease (HFMD) may first exhibit oral symptoms. Coxsackievirus A16 and Enterovirus (EV) 71 are the two viruses responsible for the contagious but benign febrile illness known as HFMD. It belongs to the Human Enterovirus A (HEVA) species of the Enterovirus genus in the Picornaviridae family. A single-stranded, positive sense, polyadenylated

RNA virus with an icosahedral symmetry structure, CV-A16 has around 7400 bases. Skeletal muscle was found to be the primary site of early virus replication whereas the brain was thought to be the site for dissemination and characterization

of a mouse model of CVA16 infection replication occurs rather late in the infection cycle. Fatigue, nausea, vomiting, diarrhoea, fever, dehydration, joint swelling, body aches, and rashes on the hands and feet that progressively increase larger in

size are some of the symptoms of tomato flu. For the diagnosis of dengue, Chikungunya, zika virus, varicella-zoster virus, and herpes in children with these

symptoms, molecular and serological testing are performed. The presence of tomato virus is established after various viral diseases are checked out. Because tomato flu shares similarities with Chikungunya, dengue, and hand, foot, and mouth illness, it is treated similarly as well. Isolation, rest, lots of fluids, and a hot water sponge are used to relieve itching and rashes. It is necessary to administer Paracetamol as supportive therapy for fever, body aches, and other symptomatic treatment required. Due to the prevalence of viral infections in children and the likelihood of close contact-based transmission, children are at higher risk of exposure to tomato flu. No further issues were noted among the 100 affected youngsters, though. None of the children who had tomato flu were hospitalized, and self-recovery was documented. Only 6.3% of CV-A16 infections resulted in aseptic meningitis in research comparing 177

EV-A71 and 64 CV-A16 patients during Taiwan's enterovirus outbreak. However, concerning, 32% of EVA71 instances led to fatal pulmonary edema, encephalitis, polio like illness, encephalomyelitis, and aseptic meningitis. If the tomato flu outbreak in kids is not contained and stopped, it could have catastrophic repercussions by spreading to adults as well. Tomato flu is extremely contagious, just like other influenza kinds. To stop the spread of the tomato flu virus from Kerala to other regions of India, it is essential to carefully isolate any confirmed or suspected cases and take additional preventative measures. To stop the virus from spreading to other kids or adults, isolation should be practiced for 5-7 days after the onset of symptoms. The greatest method of prevention is to maintain proper hygiene, sanitize the surroundings, and forbid sick children from sharing toys, clothes, food, or other stuff with uninfected kids. Tomato flu cannot yet be treated or prevented using antiviral medications or vaccinations. It is advised to conduct more research on the unusual ailment. It is now the practitioner's responsibility to get ready and recognize either the normal or atypical forms of a new disease

Microplastics Found In Breast Milk

Researchers are concerned over infant welfare after finding traces of microplastics in human breast milk for the first time ever.

1. Introduction:

The term "microplastics" refers to tiny fragments of plastic that are less than 5 mm (0.2 inch) long and end up in the environment as a result of plastic pollution. Many products like Cosmetics, synthetic garments, plastic bottles and bags, contain microplastics. Several of these products easily travel via garbage and contaminate the environment. Microplastics consist of carbon and hydrogen atoms bound together in polymer chains. Microplastics usually contain additional chemical additives, such as phthalates, polybrominated diphenyl ethers (PBDEs), and tetrabromobisphenol A (TBBPA), and many of these substances leach out of the plastics after they have been released into the environment.

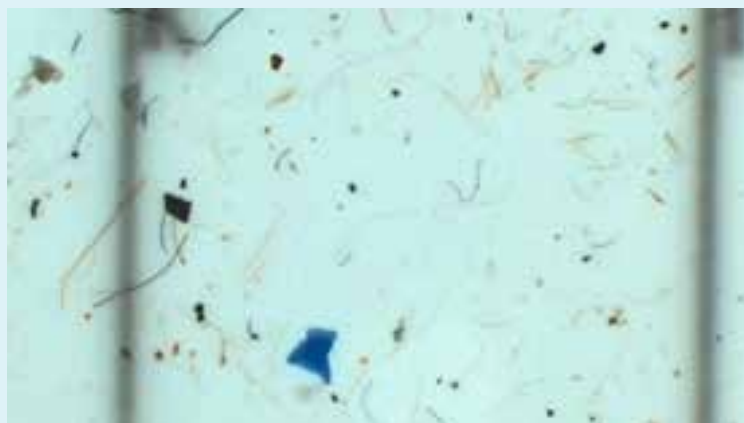

Fig.No:1 – Microscopic image of microplastic in ocean water.

There are two categories of microplastics: primary and secondary. Examples of primary microplastics include plastic fibres used in synthetic fabrics, plastic pellets used in industrial manufacturing, and microbeads found in personal care items (e.g., nylon). Primary microplastics are released into the environment directly through a variety of routes, such as product use (for instance, domestic wastewater systems are polluted by personal care items), inadvertent loss from spills during production or transportation, or abrasion during washing (e.g., laundering of clothing made with synthetic textiles). When bigger plastics are subjected to weathering, such as when they are exposed to things like wave action, wind abrasion, and UV radiation from sunlight, secondary microplastics are produced as a by-product.

We are seeing astonishing amounts of plastic garbage worldwide since more than 350 metric tons of plastic are produced annually on a global scale. In fact, it's estimated that our oceans contain 250,000 tons of plastic.

Microplastics have now been discovered for the first time in human breast milk by a study. In 26 of the 34 samples of breast milk, microplastics were found, according to a report published in *Polymers* an high impact research journal.

Depending on size, shape, colour, and chemical composition the discovered microparticles were categorised. The microplastics, which ranged in size from 2 to 12 μm , were often made of polyethylene, polyvinyl chloride, and polypropylene.

As Mia Funt, Co-Founder and Director of ByHeart said at London's September 2022 Future Food-Tech event, "it is undeniable that breast milk is best" when it comes to infant feeding. However, given these findings, caregivers all over the world may be forced to consider alternative baby feeding options such as formula.

The discovery of microplastics in breast milk may be a first, but some human placentas—an organ that forms in the uterus during pregnancy—have also been shown to contain microplastics, according to an earlier study that served as the basis for the current research. Four out of the six placentas that were analysed had 12 microplastic particles, which were analysed with the aid to Raman microspectroscopy. Researchers found that the most of microplastics were found in coatings, paints, adhesives, plasters, finger paints, polymers, cosmetics, and personal care products that were made by humans.

Despite statistical analysis of the data from this most recent study in respect to the details of certain patients, such as age, intake of plastic packed food and drink, seafood, and so forth, no significant relationship was discovered. The researchers contend that since plastic is so widespread, human exposure is unavoidable.

2. Detection and Characterisation of Microplastics in Human Breastmilk

The development of reliable and fair techniques for microplastic detection and characterization is essential given the serious concern around the consequences of microplastic on both animal and human health. Raman Microspectroscopy (RMS), which enables researchers to characterise microparticles' morphological characteristics as well as their chemical composition in terms of

both polymer matrices and pigments, can be regarded as the gold standard among all involved techniques. Because of the substantial potential of light scattering, Raman Microspectroscopy also has the benefit of enabling the study of microplastics as small as 2 μm directly on filtering membranes. Our research team recently discovered microplastic for the first time in human placenta samples and this study was conducted using by Raman Microspectroscopy, attracted much interest because the presence of microplastic may interfere with the sensitive function that this organ performs.

3. Conclusion:

The discovery of microplastic in human breastmilk, along with the earlier finding of similar particles in human placenta, is exceedingly alarming since it affects the new-borns, which is particularly sensitive. In reality, the chemicals that might be present in the meals, drinks, and personal care items that nursing moms consume could be passed on to the children, perhaps having a harmful effect. Therefore, it is essential to step up efforts in scientific research to advance our understanding of the potential health risk posed by microplastic internalisation and accumulation, especially in infants, and to analyse inventive, useful ways to reduce exposure to these contaminants during pregnancy and lactation.

Dr. Naga Prashant Koppuravuri, Assistant professor,
Dept. of Pharmaceutical chemistry

TRANSFORMATIVE BIOMEDICAL SOLUTIONS

ADVANCING HEALTHCARE INNOVATION

The world's healthcare needs are constantly changing, evolving. Yesterday's innovation are today's expectations. To succeed, you need partners with experience and expertise to help you stay ahead of the curve. That's why DSM takes a different approach than conventional medical supply companies. An approach driven not only by market dynamics, but the unique needs of every customer. It goes beyond a simple vendor or supplier relationship, it's a strategic partnership, purpose-led, performance driven and market-proven. For 30 years, DSM has been at the forefront of biomaterial science and process innovation the go-to resource for the world's leading device and pharmaceutical companies. They know that a partnership with us means not only access to unparalleled biomaterial expertise but also the backing of the broader DSM offering. When looking for your next innovation, look to us first and you will find a partner for life for solving the world's healthcare needs.

Coating's:

DSM's highly lubricious, hydrophilic comfort coat coatings are applied using an industry-leading process with ready to use coating reagents, for continence care and vascular intervention applications. Delivering superior value in a wide range of medical devices, our low particulate comfort coat products have a proven track record and offer a durable solution to clinicians worldwide.

Our newest coatings innovation, comfort coat single layer (SL), gives our vascular intervention partners a more sustainable, world class quality coating that enables significant operational efficiencies.

SL Advantage with the following key benefits:

The fastest coating process in the industry up to two times faster coating cycle than conventional.

- Ready-to-use, no mixing required.

- One chemistry for a wide range of polymer substrates.

Supporting Sustainable Development

At DSM we strongly believe in doing well by doing good, which is why our company's strategies are aligned with the UN's sustainable development goals (SDG). As DSM biomedical, we specifically use the three sustainable development goals are:

- Good health and well-being.
- Responsible consumption and production
- Climate action

According to DSM's thorough life cycle analysis, comfort coat SL has a lower environment impact than our conventional coatings. The reduced energy consumption and waste in the application results in a lower carbon footprint.

Sustainable solutions that are beneficial to both the patient and planet:

DSM biomedical is a global leader in biomedical materials science- experience that we are now using to enable the formulation of advanced sustained release drug therapies as implantable or injectable delivery forms.

Our two proprietary highly versatile polymer technologies serve as platforms for the development of long-acting formulations of bioactive ingredients providing the potential for improved patient safety and therapy and therapy compliance when managing health conditions and lifelong diseases.

Biodegradable polymer platform:

TheraPEAtm DSM Biomedical's novel biodegradable platform of polyester amide (PEA) polymers, enables the formation of therapeutic solutions where they are needed most in treatments of coronary artery diseases, pain management, diabetes management and for vision preservation. TheraPEAtm platform has

proven compatibility with a wide range of active pharmaceutical ingredients and across different routes of administration to develop an optimal therapy for the patient.

The TheraPEAtm platform has a tunable degradation profile and offers many benefits over commonly used materials in this market including:

- Broad compatibility with a wide range of small molecule and biological drugs due to their non-acidic degradation and low susceptibility to acetylation.
- Excellent biocompatibility, proven in multiple settings including ophthalmic,

- intravascular and intraarticular applications.

Biostable (non-degradable) polymer platform:

Our biomedical polyurethanes have a long successful clinical history and give formulators a proven customisable platform from which to create delivery of medications for systemic drug delivery with duration of several days to multiple months. DMS's extensive polymer expertise allows customization of both the bulk and surface chemistries for targeted compositions based on the pharmaceutical attributes and hydrophilicity requirements.

Darshan R, Darshan J P, 2nd Pharm D

Snowflakes and Ice

Snowflake Formation:

Snowflakes form by a round mineral or organic particles in the atmosphere. Each water molecule can form hydrogen bonds to four other water molecules. This creates a hexagonal structure, which is why snowflakes are six sided. Types of Snowflakes:

A snowflake's shape depends on the humidity and temperature when it forms. Researchers had identified 121 categories of snowflakes, although individual flakes remain unique at a molecular level.

Ice and Density:

Water is unusual in that its solid form, ice, is less dense than its liquid form. The hydrogen bonds in ice hold the water molecule farther apart than in the liquid phase. Researchers recently discovered that the smallest number of water molecules that can form an ice crystal is approximately 90(± 10).

Icy Chemistry:

During the dark winter in Antarctica, polar stratosphere clouds that contain ice crystals form, the crystals are perfect sites for photochemical reactions. As spring begins and sunlight appears, these reactions release radicals from chlorine

trapped in the air. The radicals deplete ozone, which is why the ozone hole appears over Antarctica.

Ice cores drilled in Antarctica and Greenland give us information about Earth's past, including temperatures and carbon dioxide concentrations. The oldest core, drilled in Antarctica in 2015, contains ice that is over 2 million years old.

Hephzibah Dsouza, 1st Pharm D

Tobacco Smoke

Cigarettes, cigars and pipe Tobacco are made from dried tobacco leaves. Other substances are often added for flavours and to make smoking more pleasant. The smoke from these products is a complex mixture of chemicals produced by burning tobacco and its additives.

Tobacco smoke is made up of thousands of chemicals, including at least 70 known to cause cancer. These cancer-causing chemicals are referred to as carcinogens.

Sreelakshmi M, 1st Pharm D

STUDENT'S CORNER

- Miss Bhagyalakshmi C, M Pharma (Sem III) Dept. of Pharmaceutical Analysis, got second prize in poster presentation during 'National Conference on Recent Advancement and Challenges in Analytical Chemistry' on 20th May 2022 by JSS College of Pharmacy, JSS University, Mysuru.

- NSS Volunteer Ms. Surabhi HM, B Pharm (Sem VI), participated in the National Integration Camp organised by Hassan Institute of Medical Science in association with the Ministry of Youth Affairs & Sports, Government of India held during 22nd -28th May 2022 at Hassan.

- Post Graduate Students from Dept. of Pharmaceutics have been completed two months online (Feb-march 2022) CSIR-IIIM

Research & Training Programme under CSIR – Integrative Skill Initiatives.

- Six students from the dept. of Ph. Chemistry and Analysis have attended one day workshop conducted at KLE college of Pharmacy, Belagavi in association with Schrodinger on the topic 'Structure based drug design' on 22nd February 2022.

- Mr. Sandip Murtale, Research scholar, dept. of Pharmaceutics, won Best Research Paper and Best Poster Presentation Awards respectively at international conference on current advances in Pharmaceutical Industry and Development held at Hyderabad on 10th & 11th March 2022.

- PG students of Pharmaceutical Chemistry lead by Dr. Nagaprashanth. K and Mrs. Noor ul ain, Dept. of Pharmaceutical Chemistry attended DST-SERB sponsored 2 days' workshop on "Structure- based and Ligand -based drug design" on 25-26th March 2022 at JSS, Mysuru. The resource Person was Mrs. Dhivya Shanmugarajan Senior Application Scientist, Althem Technologies Platinum partner of Biovia Dassault Systems Bangalore. Our Faculties and PG students highly benefited the workshop.

- Ten Pharm D students and two Ph. D scholars from Dept of Pharmacy Practices, participated and presented poster in 3rd National Pharm D colloquium NPC 2022, this two Days National Colloquium organized by Department of Pharmacy Practice, KLE College of Pharmacy Belagavi on 22-23rd April 2022.

- Dr. Yogendra Shrestha, Research scholar, dept. of Pharmacy Practice has received Award of senior Research Fellow form ICMR for his research entitled 'An ambidirectional, Descriptive, Follow-up, Cohort study to explore the long-term health consequences of COVID-19 Vaccinated individuals' under the guidance of Dr. Rajesh V, Prof and Head, Dept. of Pharmacy Practice.
- Two international patents have been granted for the faculty and research scholar. Mr. Sindhoor SM, Asst Professor, Dept. of Pharmaceutics got an Australian Patent on 4th May 2022 and Mr Alkanad Maged, Research Scholar, Dept. of Pharmacognosy, got a German Patent on 27th April 2022.
- Students form B Pharm and Pharm D of Sri Adichunchanagiri College of Pharmacy participated in various events in Bharathi Utsav 2022, organised by Bharathi Education Trust, Bharathi Nagar, Mandya, On 13-14th August 2022.

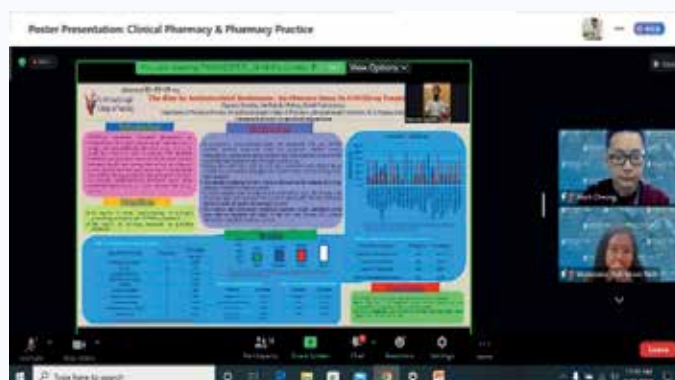

- Students of III Year Pharm D of Sri Adichunchanagiri College of Pharmacy, secured 3rd Place for patriotic dance with theme of 'Independence Day 2022' at Bharathi Utsav 2022, organised by Bharathi Education Trust, Bharathi Nagar, Mandya, On 14th August 2022.
- Students from various programmes and faculty members of Sri Adichunchanagiri College of Pharmacy, participated in oral/poster presentation in the 25th annual National Conference APTICON-2022, jointly organised by APTI and JSS College of Pharmacy, Mysuru, JSSAHER, on 2-4th September 2022. List of Participants and Presentations are furnished below.
- Students (12 no's) from various programmes and faculty members of Sri Adichunchanagiri College of Pharmacy, participated in various scholarly sessions (i.e., oral/poster presentation, poster evaluation etc.) in the 25th annual National Conference APTICON-2022, jointly organised by APTI and JSS College of Pharmacy, Mysuru, JSSAHER, on 2-4th September 2022.

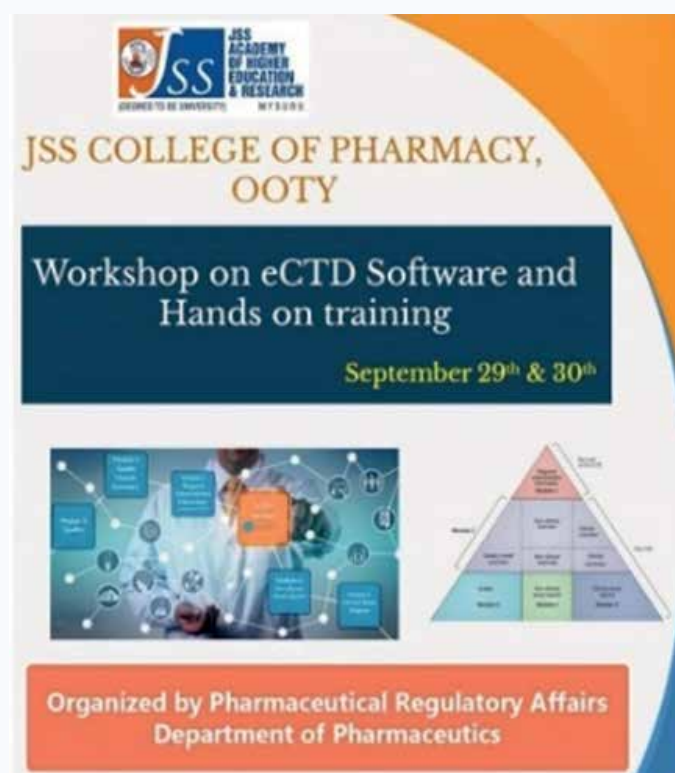

- Two PhD scholars of Dept. of Pharmacology, Mr. Golla Siva Krishna and Ms. Pooja RC has attended the '2-days Research Grant Proposal writing Workshop' conducted by Dr. D Y Patil Institute of Pharmaceutical Sciences and Research, Pimpri, Pune and CliMed Research Solutions, India in collaboration with World Youth Heart Federation, India on 20-21st August 2022.
- 10 students from II sem B Pharm of Sri Adichunchanagiri College of Pharmacy have been enrolled in the easy writing competition organising by Shri B. V. Patel Education Trust (Reg. no. E-2571, Ahmedabad) on the title of Sri B. V. Patel Essay Competition – 2022 based on the theme 'Role of Pharmacy Institutions in Innovation and Start-ups to make Atma Nirbhar Bharat'.
- Dr. Yogendra Shrestha, Ph.D. Research scholar, Department of Pharmacy Practice, represented institute by presenting a poster entitled "The Rise in Antimicrobial Resistance: An Obscure Issue in the Covid-19 treatment' at Monash Initiate 2022, Bench to Bedside: Future proofing healthcare with research and technology on 27th & 28th September 2022

organised by Monash University, Selangor Darul Ehsan, Malaysia.

- The students and staffs of II Sem M. Pharm - Pharmaceutical Regulatory Affairs of Sri Adichunchanagiri College of Pharmacy, attended a two days' workshop on eCTD software and Hands on training on 29th -30th September 2022 at JSS College of Pharmacy, Ooty in association with Navitas Life Science. It was a brainstorming session for students in transforming their theoretical aspects into practical experience using PharmaREADYeCTD software for regulatory dossier submissions.

- 25 students of different programmes from Sri Adichunchanagiri College of Pharmacy have participated in cultural events at Mahadeshwara Jyothi Yatra, a prelude to the four-day Kumbh Mela near Ambigarahalli, in KR Pet taluk, Mandya district, was launched at

MM Hill temple, in Hanur taluk, Chamarajanagar district, on 13th October 2022.

- Ms. Pooja RC, department of Pharmacology, Sri Adichunchanagiri college of pharmacy, Adichunchanagiri University, BG Nagar. Attended high-end workshop on quality control and standardization of herbal raw material for value addition and sustainable development in north-east, September 16th to 22th 2022. The workshop organized by the Department of Horticulture, Aromatic and Medicinal plants, Mizoram-University, Aizawl. Sponsored by: Science and engineering Research Board (SERB)-DST, Government of India. The workshop enriched about selection of medicinal plant (Aromatic & Non-Aromatic) and about different tool were used to detect phytochemical constituents.
- 25 students of different programmes from Sri Adichunchanagiri College of Pharmacy have participated in cultural events at Mahadeshwara Jyothi Yatra, a prelude to the four-day Kumbh Mela near Ambigarahalli, in KR Pet taluk, Mandya district, was launched at MM Hill temple, in Hanur taluk, Chamarajanagar district, on 13th October 2022.

- Vakkalagadda Siva Ganesh, Research Scholar from department of pharmacology, Sri Adichunchanagiri College of Pharmacy, Adichunchanagiri University, has attended a conference and presented an oral presentation entitled "Characterization of sapogenins in Tribulus terrestris fruits and a modified method to isolate pure hecogenin" in the session Clinical Pharmacognosy and Ethanopharmacology at "Start herb: Journey from innovation to

entrepreneurship in herbals", Organized by D Y Patil University, Navi Mumbai and Association of Pharmaceutical Research (APR) held on 14th and 15th October 2022 and won Third prize for presentation.

- Four students from Sri Adichunchanagiri College of Pharmacy, ACU participated in district level Youth Festival on 24th November 2022 at Mandya Mr Arif Allabakhash Turubkhan from B. Pharm, V Sem, won First Place in the Pick and Speech competition and also advances for state level. This event was organised by Zilla Panchayat, Youth Empowerment and sports, and Neharu Yuva Kendra Mandya.

- Eighteen students of V Pharm. D and faculties of Department of Pharmacy Practice, Sri Adichunchanagiri College of Pharmacy, ACU, have attended the National Conference on Pharmacovigilance and outcomes Research on the theme "Ensuring Patient Safety Through Quality Use of Medicines" from 2nd - 3rd December 2022 jointly organized by ISPOR Nitte (Deemed to be University) Student Chapter & Dept. of Pharmacy Practice, NGSM Institute of Pharmaceutical Sciences, Mangaluru. Nearly 280 students from different institutions all over India have actively participated in the conference.
- Twenty two Pharm-D students (III, IV and V Pharm-D) from the Department of Pharmacy Practice of Sri Adichunchanagiri College of Pharmacy, ACU, have attended the conference on "Changing World of Healthcare" organised by Avenida Innovations at JNTU Hyderabad from 8th-9th December 2022. As a part of conference, two V pharm D students i.e., Sangeetha N and Pallavi N S have presented Case interventions during the conference. The conference concluded with the valedictory

function followed by certificate distribution for the Delegates. Nearly 1000 students from different institutions all over India have actively participated in the conference.

- Cinchana. S First year Pharm D, from Sri Adichunchanagiri College of Pharmacy have participated and got a participation certificate in an International Cultural Jamboree at Alvas Education Foundation Moodubidire, Dakshina Kannada, Karnataka Organised by the Bharat Scouts and Guides, Karnataka from 21st -27th December 2022.

FACULTY'S CORNER

I. Book/Book Chapter Published

- Dr. B. Ramesh, Principal and Professor, Dept. of Pharmaceutical Chemistry, co-authored a book, entitled "A practical book of Pharmaceutical Organic Chemistry" by Nirali Prakashan Publishers, April-2022. (ISBN: 978-93-5451-470-8).

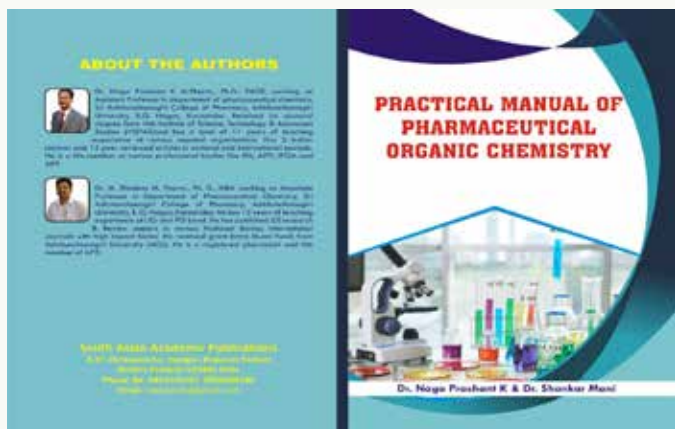

- Dr. Prakash G, Prof and HOD, Dept. of Pharmaceutics, have been co-authored a book entitled "A practical book of Pharmaceutics" for I Pharm D students. The book was published by Nirali Prakashan, New Delhi.

- Dr. Bharati DR, Professor, Dept. of Pharmacology have been authored a book entitled 'A Practical book of Pharmacology' published by Nirali Prakashan, New Delhi on 28th April 2022.

- Dr. Naga Prashant K and Dr. Shankar M, from Dept. of Pharmaceutical Chemistry have published a book entitled "Practical Manual of Pharmaceutical Organic Chemistry" by SAAP Publishers on 25th April 2022 (ISBN no: 978-93-92153-54-9).

- Dr. N Raghavendra Naveen, Asst. professor, Dept. of Pharmaceutics, has published a book chapter entitled Blockchain Technology: A Breakthrough in the Healthcare Sector in Transformations Through Blockchain Technology the New Digital Revolution- Publisher- Springer on 12th March 2022.

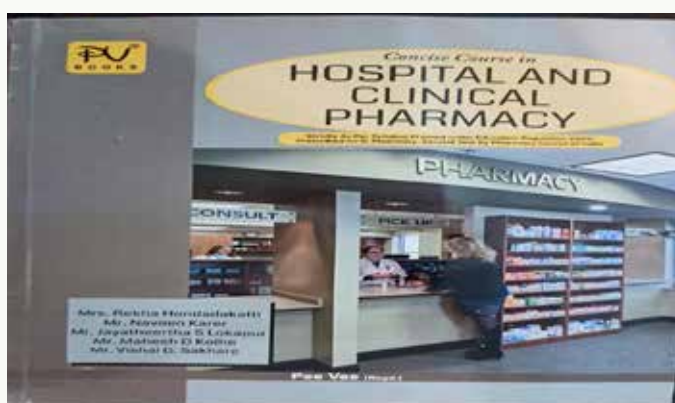

- Mr. Sageer Ahemed and Dr. Rupesh Kumar M from Dept. of Pharmacology, have published a book on 'Practical Pharmacology - I' from Nirali Prakashan, Pune.

- Dr. B Ramesh Dean and Principal of SACCP Dr Prakash Goudanavar and Dr. N Raghavendra Naveen, Dept. of Pharmaceutics and Dr K Naga Prashant Dept. of Pharmaceutical Chemistry have published a manuscript entitled, Development of Novel Unfolding Film System of Itopride Hydrochloride Using Box-Behnken Design—A Gastro Retentive Approach in Pharmaceuticals Journal (Impact factor 5.215) on 10th August 2022.

- Mr. Jayateertha Lokapur Ph. D scholar, Department of Pharmaceutics has published text book on Hospital and Clinical Pharmacy for D. Pharm II (ER 2020). It was published by PV publications.

- Dr. Manish Majumder, Dept. of Pharmaceutical Chemistry have published a manuscript in Indian drugs journal on August 2022.
- Dr. Bharati DR, Professor, Dept. of Pharmacology, have completed a certification course and awarded certificate on NAAC SSR and AQAR data management system by Inpods, USA.

- Dr. B Ramesh, Principal and professor, Dept. of Pharmaceutical Chemistry have chaired a scientific session during the 15th annual

National Conference APTICON-2022, Mysuru, on 2-4th September 2022.

- Dr. B Ramesh, Dean of Pharmacy and Principal, Sri Adichunchanagiri college of Pharmacy, have been invited as guest of honour in the Teachers Day celebration at Aditya Group of Institutions, Yelahanka, Bengaluru, Karnataka on 5th September 2022. Dr. Ramesh, have been facilitated and honoured by the dignitaries of Aditya Group in a public gathering.

- Dr B Ramesh, Dr Prakash S Goudanavar, Dr. N Raghavendra Naveen Dr G.B. Kiran Kumar, and Dhanvanth Kumar (M. Pharmacy, II semester) Dept. of Pharmaceutics of Sri Adichunchanagiri College of Pharmacy, published a manuscript entitled Prospection of fabrication techniques and material selection of microneedles for transdermal drug delivery: An update on clinical trials in Materials Today: Proceedings. (Elsevier- IF/CS-2.3) on 05th September 2022.
- Dr. N Raghavendra Naveen, Assistant professor, Dept. of Pharmaceutics of Sri Adichunchanagiri College of Pharmacy has published a manuscript entitled 'Development of Novel S-Protective Thiolated-Based Mucoadhesive Tablets for Repaglinide: Pharmacokinetic Study' in Polymers Journal (Impact factor 5) on

28th August 2022.

- Dr. Naga Prashant K, Assistant professor, Dept. of Pharmaceutical Chemistry, Sri Adichunchanagiri College of Pharmacy, has delivered a Guest Lecture at Narasaraopeta Institute of Pharmaceutical Sciences, Narasaraopet, Guntur on Computer Aided Drug Designing - A Tool for Drug Repurposing on 29th August 2022. Around 200 students and faculty attended the session and got benefitted.

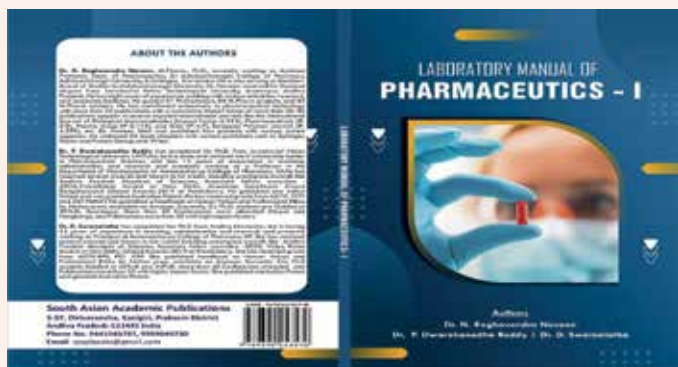

- Dr. Naga Prashant K, Assistant professor, Dept, of pharmaceutical chemistry of Sri Adichunchanagiri College of Pharmacy, has delivered an Invited Lecture (Virtual mode) on "Computer Aided Drug Design - A Modern Era Tool" at NETES Institute of Pharmaceutical Science, Mirza, Assam on 23rd December 2022. Students and faculty of NETES Institute of Pharmaceutical Science attended the session and got benefitted.

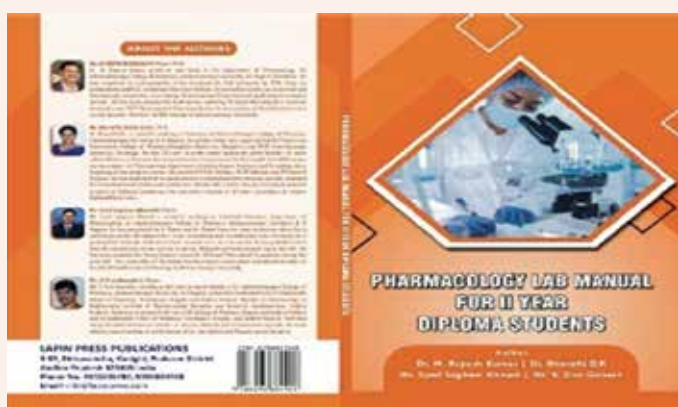

- Dr. Prakash Gowdanavar, Professor and Head, Dept. of Pharmaceutics has undergone innovation Ambassador (IA) training "Advanced Level" conducted in online mode by MoE's Innovation Cell & AICTE during the IIC calendar

- Sri Adichunchanagiri College of Pharmacy, Adichunchanagiri University, have filled an Indian patent of invention on 4th November 2022 and officially published in the Indian Patent Office Journal. Title of the invention was Immunomodulatory compounds and process of preparation thereof. (Application No: 202241059635 A) and the Inventors were T. Yunus Pasha, Ramesh Bevanahalli, Rupesh Kumar Mani.

- Mr Tripathy AS, assistant professor, Dept. of Pharmacognosy have completed a certificate course entitled 'Foundation course on NAAC Accreditation' offered jointly by Rathore academy for NAAC Accreditation, Accreditation ranking and certification network of India (ACRNET India) and CliMed Research solution India on 28th September 2022.

- Dr. N Raghavendra Naveen, Asst. professor, Dept. of Pharmaceutics has published a book chapter entitled Artificial Intelligence Techniques to Restrain Fake Information Publisher- Springer on 7th October 2022.
- Dr. N Raghavendra Naveen, assistant prof. Dept. of Pharmaceutics of Sri Adichunchanagiri College of Pharmacy has published a book entitled 'Laboratory Manual of Pharmaceutics-' by SAAP Publishers on 13th October 2022.
- Department of Pharmacology of Sri Adichunchanagiri College of Pharmacy, ACU, has Published a book titled as "Pharmacology Lab Manual For II Year Diploma Students". The Authors were Dr. Rupesh Kumar M, Dr. Bharathi DR, Mr. Syed Sagheer Ahmed, Mr. Siva Ganesh V.

- Dr. Rupesh Kumar M, Prof & Head, Dept. of Pharmacology of Sri Adichunchanagiri College of Pharmacy, have invited as a guest and delivered a seminar on the topic 'Clinical Pharmacokinetics' Organized by R.R. College of Pharmacy, Bangalore on 21st October 2022.
- Sri Adichunchanagiri College of Pharmacy, Adichunchanagiri University, have filled an Indian patent of invention on 4th November 2022 and officially published in the Indian Patent Office Journal. Title of the invention was Immunomodulatory compounds and process of preparation thereof. (Application No: 202241059635 A) and the Inventors were T. Yunus Pasha, Ramesh Bevanahalli, Rupesh Kumar Mani.
- Dr. N Raghavendra Naveen, Dept. of Pharmaceutics, Sri Adichunchanagiri College of Pharmacy has published a manuscript entitled, A spotlight on alkaloid nanoformulations for
